Experience

04/20 - now **Java Software Engineer** — Almundo
Workes mostly in REST micro services. Use and spectrum of tools, like Mongo, and Elastic Search as databases. Did a microservice migration by herself. Participated in the hotels team for 5 months doing maintenance and adding new features. Currently on the Payment Methods team. Here I did an entire microservice migration by myself. I also do maintenance of the front end applications. I also participated in Architectural decisions of the microservices. We use continuous integration with Jenkins pipelines and Sonar.

08/18 - 06/19 **Software Engineer in Testing** — CME Group - Tradehelm Contractor
I was a part of the Deployment's Team. The tool we maintained was java based and used Selenium and Cucumber. I was a lead developer in a RegOps project.

04/18 - 08/18 **Java Software Developer** — Red Link - Flux-IT Contractor
I worked in a new System for payments to replace the old one based on Visual Basic. The new paymnent System is based on Java, Oracle Database, Postgres, Spring.

11/17 - 03/18 **Java Software Developer** — Open Bank - Globant Contractor
I work in the Loans team. The main job consisted in migrating existing SOAP microservices into REST services. Actively participated in the code review process, sprint demos and improvement suggestions. Had the opportunity to collaborate with other teams of Open bank like Payments and ATM due to the similarity o the main structure. SCRUM as an agile methodology.

04/16 - 10/17 **Java Software Developer** — Thomas Cook - Globant Contractor
We are currently working on different solutions for the British travel company Thomas Cook. The project is based in magnolia framework but it used a set of diverse technologies including Spring, Node.js MongoDB, Angular JS, Selenium, etc. My main job is to develop new functionality. I also develop Automated Test cases with Selenium.

Teaching Experience

06/17 - 04/18 **Plan 111mil Instructor** Simon de Iriondo High School E.E.T. N° 24
111mil is a government plan to quickly form developers and provide them with skill to start in the work field. I teach Java, MySQL, Programming Basics and Software Engineering.

02/17 - 07/17 **Student assistant - Subject Laboratory 3** National Technological University (UTN)
We teach several applications and fundamentals of Microsoft Technologies. The framework .NET, Visual Studio IDE and C# language are the base of the subject.

04/14 - 11/14 **IT Careers Promoter** Sadosky Fundation
As a group of people studying/teaching IT careers we encourage High School Students to follow IT related careers. We give simple classes about Object Oriented Programming with a video game. We use Alice tool of Carnegie Mellon University to do so.

Education

2015 - 2018 **Higher Education in Programming** UTN
Certificate pending.

2009 - 2014 **Systems Engineering** UTN
Unfinished.

2002 - 2007 **High School Degree** C.E.P. N° 73
I studied at C.E.P. Nº 73 “Libertador General José de San Martín”. Presidencia de la Plaza – Chaco. GPA: 9,06 out of 10,0.

12-2006 **First Certificate in English** Cambridge University
Council of Europe Level B2. I took the exam at the *Instituto Chaqueño de Cultura Inglesa*. It is endorsed by the Cambridge University, ESOL Examinations. Approved with: *Pass (C)*.

12-2005 **Preliminary English Test** Cambridge University
Council of Europe Level B1. Approved with: *Pass With Merit*.

12-2004 **Key English Test** Cambridge University
Council of Europe Level A1. Approved with: *Pass With Merit*.

e-Learning Courses

2017	**Application Security Fundamentals**	Veracode
2017	**Security Awareness**	Veracode
2017	**Introduction to Unit Tests in Java**	Acámica
2016	**Angular.js: Basics**	Acámica
2016	**Express**	Acámica
2016	**HTML5**	Acámica
2016	**MongoDB**	Acámica
2016	**Try Git**	Code School
2016	**Node.js, the beginning**	Acámica

Conferences

10/2013 **CNEISI** — UTN - Villa María City
Attendance to the Conference of Engineering Students in Information Systems (CNEISI)

2014 **CNEISI** — UTN - Santa Fe
Attendance to the Conference of Engineering Students in Information Systems(CNEISI)

08/2014 **SASE** — FIUBA
Assistance to the SASE (Argentine Symposium of Embedded Systems) carried out in the Engineering University of Buenos Aires (FIUBA) in the Autonomous City of Buenos Aires.

Programming Contest

09/2015 **Tecno-MATE Programming Contest** — UTN - Santa Fe City
Participation representing the UTN of Resistencia City

09/2015 **Argentinean Tournament of Programming -TAP** — ACM-ICPC
5th. Placed in the Headquarters of Resistencia. Position 36th at the national level.

02/2016 **Argentinean Tournament of Programming -TAP** — ACM-ICPC
4th Placed in the Seat of Resistencia (Classified for the South American Tournament). Number 56 at the national level.
