

Bravo Ivan G.

📍 FullStack Software Engineer at Leniolabs_

Key Expertise

- Communication and teamwork
- Programming
- Problem-solving capability
- Designing and creating applications

Summary

Versatile developer willing to grow up and learn. My main focus is to help the team, to be creative, and to stay positive. Always looking forward to implementing my knowledge into the development of new projects. I believe in teamwork, and that the group synergy is paramount in the results of the projects!

FrontEnd
Web stack in general. HTML, CSS and CSS preprocessor, JS/TS.
Extensive use of **React.js**.
I've also worked with React Native. To a lesser extent with Angular and Vue.
I'm familiar with Material Design, Design Systems, UI kit development, Design Thinking, Figma.

Backend
Mainly Node.js.
I've also worked with JAVA and C#.
Knowledge of SQL and noSQL.
