Luis Alfredo Porras Páez

Senior Software Engineer in Runa
Barranquilla, Atlántico, Colombia

Summary

I'm a Colombian Full Stack Developer with more than 10 years of experience building web applications, and organizer of web development meetups in Chile and now Colombia.

I've been working with Ruby On Rails stack mostly but I've also had the opportunity to work with NodeJS and React.js. Always looking forward to keep learning and sharing knowledge.

I love to build software that causes a real impact in the life of people. I really think that design and user experience matters, so I always focus my work to not just do the thing right but also make it feels fluid and natural.

Specialties:
- Programming Languages: Ruby, Javascript, Python
- Web Frameworks: Ruby on Rails, Restify.js, Hapi.js
- DataBases: Postgres, Mysql, Elasticsearch, MongoDB, Redis
- Front End: React.js, Redux.js, Bootstrap, Jquery, Backbone.js with Marionette.js
- Testing Frameworks: Rspec, Mocha.js, Jest
- Git, Svn
- Linux, OSX
- Data Science: Python, Pandas, Machine Learning
