Hernan Berroja Albiz

Co-Founder at Leniolabs
United States

Summary

Partner and Operations manager at Leniolabs, a software services company with wide experience in frontend development and data visualization for Enterprise and financial markets.

More than 15 years of professional experience in the IT industry, working mainly in business development in the United States, focused in San Francisco and New York for Enterprise companies and growing the company in Latam, running the regional business.

Bachelor of Computer Science (Universidad de Buenos Aires), having a mixed background between science and business. Also supporting the tech community and organizations, coordinating and collaborating on tech events.

Experience

Leniolabs_ LLC
10 years 5 months

Co-Founder
April 2013 - Present (10 years 5 months)
Greater Buenos Aires, Argentina

Chief Operating Officer
January 2017 - Present (6 years 8 months)

Entropeer
14 years

Co-Founder
January 2010 - Present (13 years 8 months)

I'm in charge of Latam operations, new business research and project management

Independent Analyst and Developer (Java / Python / .NET / Digital Marketing)

September 2009 - February 2010 (6 months)

As an entrepreneur, I worked in multiple areas, carrying out the project management, designing the architecture and development, using the experience and knowledge gained earlier. I worked with different technologies for different clients having very good results with this work modality (off-shore development, consulting, custom developments, etc). The lasts projects included integrations with e-commerce products, CMS customizations, asp/mvc applications, etc..
I could expand my expertise working with .Net ASP MVC applications, and doing developments for social networks like Facebook.

Capgemini
Java Developer and Project Leader
August 2008 - October 2009 (1 year 3 months)

I've been working in projects for big clients in different business like airlines or e-commerce stores for hypermarkets.I had a different participation on each one of these, from developer to project leader. On these projects I've been working with J2EE, Oracle, DB2, MVC, Struts, Hibernate, Spring, ATG (e-commerce framework), Legacy systems (cobol) integrations. In my project leader role, I had to grow in my human skills, leading a small group of people and interacting with clients, doing the planning and being responsible of the development.

Apernet
Java Developer
December 2007 - August 2008 (9 months)

I've been working on the development and technical design of J2EE applications, using different frameworks and technologies (like Struts, Tapestry, Hibernate, JBoss, Tomcat, Quartz, Ant, JUnit) and applying Design Patterns and Architectural Concepts. also I was involved in CMMI interviews and process.

Indra Systems
Java Developer
June 2005 - December 2007 (2 years 7 months)

Work with J2EE, Hibernate, Struts, Spring, Web Services, etc...

Education

University of Buenos Aires

Bachelor's degree, Computer Science · (2002 - 2010)
