LANGUAGE

- Spanish - Native
- English - Advanced
- Portuguese - Basic

SKILLS

- Azure Devops
- Kubernetes - Jenkins - Docker - Terraform
- Python - Scripting ,PowerShell
- Git - Perforce - Github - Bitbucket
- NodeJs - ExpressJs
- Javascript - React, Vue, Angular, NextJs
- JAVA - Spring Boot, Batch, MVC
- Oracle - PostgreSQL - SQL Server - Mysql
- CosmoDb - MongoDb
- PHP - Laravel

WORK EXPERIENCE

LenioLabs (USA)

FullStack Developer
(TRINET USA) — **Oct. 2023 - Currently**

- Development of new REST APIs and integration design.
- Creation of new frontend componentes (Angular).
- Preparation of unit tests for frontend components and backend.
- Collaborated closely with interdisciplinary teams to facilitate effective communication and ensure seamless integration between frontend and backend components.

NTTDATA EUROPE & LATAM (Peru)

DevSecOps
(Banco de Credito del Peru - Prima AFP) — **Jul. 2022 - Sep. 2023**

- Implementation of CI/CD pipelines to reduce build and deployment times by combining scripts in Python, PowerShell, Groovy (Jenkins), and Azure DevOps.
- Containerization of microservices with Docker and orchestration using Kubernetes, simplifying service management and scalability.
- Provisioning cloud resources with Terraform and Azure.

Canaway Academy (Canada)

FullStack Dev - Technical Leader — **May. 2021 - Jun 2022**

- Development of scalable microservices using Node.js, Express.js, and Java (Spring Boot)
- Code analysis and documentation
- Crafting technical as well as non-functional requirements.
- CI/CD automation throughout the software development cycle.
- Automated testing with Selenium Grid.
- Managing dependencies in Maven and Gradle.

Lima Digital (Peru)

FullStack (Sr Dev) — **Nov. 2018 - May. 2021**

- Development of cutting-edge modules in Angular and React, enhancing the user interface and experience.
- Collaborated with cross-functional teams using Kafka and Java to ensure seamless communication and data flow
- Creation of RESTful Web Services APIs (Spring Boot
- Modeling the architecture with Spring Boot microservices.
- Optimized module performance using lazy loading and state management with Redux and NgRx.

Partner Tech (Peru)

Developer — **Jan. 2017 - Dec. 2018**

- Worked with Test-Driven Development (TDD).
- Creation of RESTful Web Services APIs (Java Spring Boot and NodeJs).
- Development of frontend components in JS/TypeScript (React, Angular, and Vue).
- Creation of unit tests for frontend components.

EDUCATION

Universidad Tecnológica del Perú

Mar. 2018 - Dec. 2022

Bachelor of System Engineering, top third.

ADDITIONAL INFORMATION

- Participation as a FullStack Developer in the SinPad 3 project **-National Institute of Civil Defense of Peru 2023.**
- **Microfost Azure 900** - Microsoft 2023
- **DevOps Foundation** - DevOpsInstitute 2023
- **Scrum Fundamentals** - ScrumStudy 2022
- **CCNA Routing and Switching** - CISCO 2020
