WORK EXPERIENCE

Holidu, Germany | Software Development Engineer | 06/2023 - Present

- Engaged in Holidu's Business Intelligence (BI) team, developing Java Jobs to interface with Ads APIs from Meta, Google, Pinterest, and Microsoft, processing advertisement data for all our active Vacation Rentals. Implemented AWS Firehose streams and S3 buckets for data storage, analyzed with AWS S3 Athena. Designed CRON Jobs using AWS Glue and Lambdas, built DAGs in Airflow, and created tables in Redshift. Collaborated with the Data Engineering team to present data in Looker Studio, aiding the Marketing team in optimizing advertising campaigns.

Expedia, Argentina | Software Development Engineer (Globant Vendor) | 06/2021 - 05/2023

- Worked on the migration of one of the most important databases of Expedia, in charge of storing all hotels and their rooms, with +3 million active hotels and over 11 million hotels overall. Developed endpoints used to interact with the new database, as well as to keep the old database in sync during the migration.
- Did the migration of a Kafka topic, consumer application, and producer application in charge of transporting and processing the information related to latitude and longitude of the 11+ million hotels and 33+ million rooms.
- Provided support and developed new functionalities in the Hotels Acquisition architecture.

Globant, Argentina | Senior Java Developer | 05/2021 - 05/2023

- Did +50 technical interviews to candidates as Globant Gatekeeper.
- Did Tech Talk for +150 Globers about AWS Certified Cloud Practitioner Certification.
- Mentored Junior Java Developers as their Career Leader.

Globallogic, Argentina | Junior Software Engineer | 11/2020 - 05/2021

- Did an application’s planning, development, testing, deployment, and documentation to connect our client Timetrade with Hubspot (a CRM).
- Developed an application to create dashboards and monthly reports in a monitoring service for +100 applications.

Emmsa IT Services, Argentina | Junior .NET Engineer | 03/2020 - 10/2020

- Developed functionalities on the Internal Web Page for the +10.000 SMG employees to use. Related to accounting and client subscriptions.
- Did maintenance and developed features for Air Liquide´s internal website.
