JOAQUIN ROLDAN

EXPERIENCE

SAP ABAP Consultant

Clever Functional Team | June 2022 - December 2022

- In charge of the transition of systems to SAP S/4 HANA in the Phoenix project of Telecom Spain, managing all kinds of programs for administrative use of Abap in all Telecom subsidiaries. I have junior knowledge in everything related to transaction management, creation of Z and ALV reports, object-oriented programs in ABAP and query management and use of the Data Dictionary.

Service Desk Engineer

Cognizant | May 2021 - June 2022

- Troubleshooting of windows system, windows applications and specialized systems at first level / remote management of desktops and networks / use of specialized ticketing system for service desk. Worked in projects such as Blue Cross Blue shield of Minnesota, specializing in troubleshooting from VMwares (Highmark/Citrix) and compatible systems used by the customer service representatives, to file transfers and secure emails. Also worked in the Quilmes brewery project where I specialized in user registrations and file transfers using programs like SAP, Truck and Meta4.
