ABOUT ME

Effective development to efficiently solve the proposed tasks, excellent predisposition to acquire the necessary knowledge to improve in the designated area. Currently, I have experience in functional and development areas, carrying out administrative tasks and customer requests using ERP, ensuring the best possible customer experience.

EDUCATION

UTN

Bachelor's Degree in Business Administration

UTN

- Diploma in Human Resources
- Diploma in Web Development
- SAP ABAP Diploma
- SQL Diploma

EXPERIENCE

ACCENTURE - BUENOS AIRES

Application Development Associate
March 2021 - August 2022

- I was part of two large projects in the company:
- As a SAP ABAP programmer where I set up databases and standard programs supporting the client with all employee data.
- Functional Analyst supporting and reporting financial reports and balances to the internal client, ensuring good performance of the report.

THENOTCOMPANY- BUENOS AIRES

Business Analyst
August 2022 - June 2023

- Provide support to the New York-based finance team, ensuring best system performance to report financial data to manager, track user issues with the technical team, and test new ERPs for future use.

TOOLS

UDEMY

- Alteryx
- Power BI
- Excel intermedio

ERPS USED

- SAP
- S4HANA
- SFTP
- MySQL
- Oracle

EY - BUENOS AIRES

Data Analyst

June 2023 - April 2024

- Integrating the Tax team, auditing the client's accounting documents as needed, extracting them from the client's ERP for monitoring with the local team and achieving the correct analysis and posting deadlines within the internal tools.
