Magento Certified Developer Plus

Eduardo Albelo

Full Stack Developer
Tandil

Summary

I am a passionate self-taught in programming since I was 15 years old. I have worked mostly on e-commerce but lately I am focused on JavaScript projects as full-stack developer, I always feel attracted by disruptive technologies. Currently I'm learning a lot about Machine Learning with Tensorflow & Keras mainly (Python) which I consider something very useful for IT future.

Experience

Keliam by Aether
Full Stack Developer
November 2016 - Present (5 years 9 months)
Barcelona Area, Spain

Working as full-stack developer on different EU projects using the following technologies:
React, NestJS, Frontity, Wordpress, Woocommerce, Drupal, Magento & Prestashop.

IncluIT
Tech Lead
July 2020 - February 2021 (8 months)
Cordoba, Argentina Metropolitan Area

I've been working on a US healthcare startup building an AWS architecture from scratch with Serverless framework

SparkDigital
Full Stack Engineer
June 2018 - June 2020 (2 years 1 month)
Partido de Tandil, Gran Buenos Aires, Argentina

NodeJS, React & Moodle development on an American e-learning platform. I have been dealing with PHP upgrade, new UI components, support for accessibility (ARIA), support on Node.js REST API. I have designed and developed a notification architecture using AWS as backend and React as frontend.

BeeReal • Software Development & UX Design
Full Stack Developer
January 2017 - January 2018 (1 year 1 month)
Tandil

Full-Stack Developer on complex Angular projects from zero (Styling, Animations, Integrations, Programming). Also I've been working with Wordpress, Ionic, React, Redux and React Native. UX & Microinteractions experiments. I quit the job to study and work remotely in home.

Globant
Magento Architect
November 2015 - March 2016 (5 months)
Tandil

I was hired to work with Angular but at the end I started as back-end development on Magento project for an important Argentinian company. I did support, advices, development, performance optimization, API Integrations and improvements on Team work-flow.

Insiteout
