Career Summary

*Selected through a QC Bootcamp, I joined the **Globant** in October 2015 as Junior QC , assigned to the Pizza Hut's project. In Pizza Hut I developed the basic testing skills. Once the assignment finished, I worked for Hub International. There, I had direct contact with the client, reporting to him directly. The project finished in August of 2016. Then I was assigned to PR Newswire as associated, helping the other QC's to develop test cases. Then, I joined Inkafarma's project. I was the only QC in the team. I Developed the Test Plan, the reports, the Test Cases and the Regressions. It was an Native Android project.*

*In August 2017, **Spark Digital** selected me to join them. I'm currently working on a project for Macmillan Learning. It's a Web platform with ReactJS and NodeJS.*

At this moment I'm working in both manual and automation testing, but also looking forward to moving into a developer path.

My actual Seniority is Semi Senior.

Summary of Qualifications

Skills:

- ***C** - Intermediate*
- ***SQL, MSSQL & MySQL** - Intermediate.*
- ***Automation (Selenium Webdriver – Python**)*
- ***Automation (Selenium Webdriver – Java**)*
- ***Automation (Selenium Webdriver – Protractor– Javascript**)*
