R-shiny Applications For PK-PD: Clarithromycin PK As An Example

Ezequiel Nuske

Chief Technology Officer
Buenos Aires, Provincia de Buenos Aires, Argentina

Extracto

Chief Technology Officer at zenziya. Passionate Software Architect, who loves blending the old with the new, the data,
and the code. Maintainer of obscure undocumented legacy systems and developer of
Cloud-based cutting-edge platforms. Passionate about Data Science, Algorithms and
Numerical Optimization.

Experiencia

zenziya
2 años 4 meses

Chief Technology Officer
septiembre de 2021 - Present (1 año 5 meses)

Currently leading a team of 20 developers. As a fin-tech startup, we develop the main
product of our company, a cloud-based lending platform, as well as the back-office
software, and also maintain the banking core.

Chief Data Officer
abril de 2021 - Present (1 año 10 meses)

Senior Data Scientist
octubre de 2020 - abril de 2021 (7 meses)

University of Buenos Aires
Machine Learning Researcher
2015 - 2020 (5 años)

Analysis of Biological Data and Molecular Structures using R and Python. Effectively mined
unstructured data. Utilized algorithmic and programming tools to build helpful predictive

models. Development of Machine Learning Algorithms for Pharmacology. Three papers
published on numerical optimization and database mining for epidemiology

Servicios de Comercio Exterior S.A.
Technical Lead
2009 - 2015 (6 años)

Leading the DevOps team of 3 people. The main task was the development and
maintenance of the in-house CRM software, developed with a Cake-PHP Backend and
a jQuery frontend.

Latinnet S.A.
Senior Software Developer
2003 - 2009 (6 años)

Developed accounting systems, mostly working with Visual Basic, C#, and SQL. Deployed
systems to physical production servers on-site, and provided maintenance and administration of Linux servers and Oracle Databases.

Pleyades Systems S.A.
Software Developer
febrero de 2003 - noviembre de 2008 (5 años 10 meses)

Created Retail applications with Borland Delphi and Flash Actionscript. Maintained
assembler code for custom hardware anti-piracy locks. Developed several Flash games
with arcade-like controls for corporate clients.
