Profesional Personal

UCV

2015

2014-2015

I helped as a Teacher assistant for the IT department, where I helped students with Excel and Visual Basic (VB).

ONE2PLAY

2016

2015-2016

Worked as a seller for a specialize in computer and gaming consoles store. And also managing the logistics of the technical service of the consoles.

APEX

2017

2019-Current

I develop, test and maintain Data Pipelines, to ingest data into GCS, BigQuery or SQLServer using tools like: Apache NIFI, GCP (Cloud Function, DataProc, DataComposer).

2020

About me

I'm a self-taught Data Engineer who love being challenged with new technologies every day, right now have experience doing profesional projects using python in technologies like Spark and AirFlow.

Strengths

- Reasoning Capacity
- Facility to Express and Understand Ideas
- Fast Learning
- Interest in Continuous Development
- Excellent Diction
- Adaptable and Flexible

Educación y Áreas de Conocimiento:

Universidad Central de Venezuela (UCV)

Civil Engineer (until eighth semester) 2010-2015

Universidad Tecnológica Nacional (UTN) 2018-2018

Cisco Certified Network Asociate (CCNA) First Course

Institución Cervantes (IC) 2020-2023

System Analist

completed courses:

Data Engineering, Big Data, and Machine Learning on GCP (Coursera)
Scientific Computing with Python (FreeCodeCamp)
Fundamentos de programación (Miriadax)
Programación con JavaScript (Miriadax)
Programación con Java Standard (Miriadax)
Aprende SQL (Miriadax)

Programming Languages:

JAVA	SQL
Python	C#
JavaScript	HTML/CSS

Frameworks & Skills:

Anaconda (sklearn, Tenserflow)	GCP
Apache Spark (PySpark)	SQL SERVER
Apache Airflow	MYSQL
Apache NIFI	Linux
Algorithm Design and Analysis	GIT
Data Structures	

Languages: Spanish: Native.
English: Advanced and fluent.
French & German: Basic.
