Juan Marcelo Martin

Front End Developer

I'm a Javascript Developer, proficient in both Angular and React. I have also experience working with Node Js.
I'm looking for a position in which I can apply and extend my knowledge of these technologies and learn new ones.

Stack: HTML, CSS, Bootstrap, Javascript, DOM Manipulation, JQuery, API's.

SKILLS

- Javascript
- Typescript
- React
- Redux
- Material UI
- Angular 9
- RxJs
- NgRx

PERSONAL PROJECTS

Press Kit Builder
11/2021 - ongoing
- Application to build Press/Media Kits. My status in this repo is as a contribuitor.
- Technologies Used: React, Redux, Material UI, Serverless, AWS Lambda Functions, DynamoDB.
- Repository: **github.com/aleaker/kit-ui / github.com/aleaker/back-press-deck**

E-Commerce
06/2020 - 10/2020
- This project consists on the frontend side of an E-Commerce. All components get their data from redux, not directly from the backend. This makes it easily adaptable to any api.
- Technologies Used: React, Redux, TypeScript, Material UI.
- Repository: **github.com/juanMarceloMartin/ECommerce**

SV Spiel
12/2020 - 04/2020
- Application to practice german grammar. Styling details are yet to be polished
- Technologies Used: Angular, Angular Material, Node JS, Express, Sequelize, TypeScript, Postgres.
- Repository: **github.com/juanMarceloMartin/german-app**

EDUCATION

Coding Bootcamp Graduate
Plataforma 5
09/2019 - 12/2019
Full Stack Javascript 3 months immersive Bootcamp. The curriculum included a solid foundation on Javascript fundamentals and technologies such as Node, Express, SQL(Postgres), React and Redux among others.

LANGUAGES

- Spanish: Native
- English: Bilingual
