DAVID **GALLEGOS**

FULL STACK DEVELOPER

PROFILE

I'm a Full Stack Developer with over 10 years of experience. While I have worn many hats in a variety of projects within the software development life cycle, I have been specializing in the Front End field for the past 4 years.

EXPERIENCE

Endava
2022 - Present

Front End Developer
Endava is global and public tech company working with some of the world's leading Payments, Financial Services, Telecommunications, Media, Technology, Consumer Products, Retail, Mobility, and Healthcare companies.
Currently, I am working as a Front End Engineer on applications created with React.js, Angular, and .NET. Additionally, I am serving as the Front-End Community Lead within the company, as well as a Career Coach, assisting those who wish to build their careers within the organization.

Freelance
2021 - 2022

Full Stack Developer
I have worked as a freelance contractor with international agencies in the creation of applications like http://angel.bike and https://jetmembership.com/, among others. Utilizing technologies such as WordPress, Node.js, React.js, Vue.js, and GraphQL.

Kozaca
2020 - 2021

Full Stack Developer
Kozaca is an SME that provides mainly administrative systems to entities related to healthcare, such as health insurance companies, institutions, professionals, patients, etc. My role was to develop hybrid applications using Ionic, as well as working on systems using PHP, MySQL, and Javascript.

Syloper
2015 - 2020

Tech Lead | Developer
Syloper is a digital solutions agency where I had the opportunity to work with different clients such as Berkley (https://www.berkley.com/), Medallia (https://www.medallia.com/) and La Segunda Seguros (https://www.lasegunda.com.ar) among others. My role in the company varied, but primarily I had to develop applications, processes, and train teams.

GUFO
2011 - 2019

Graphic Design | Development
GUFO is a graphic design studio that, over time, decided to dive into the world of technology. This is where I began to develop my skills in PHP, Javascript, and MySQL. Over the past years, until 2019, I worked as a consultant and provided training to their teams.
