Core Competencies

Amazon Web Services
Node.js
Agile Methodologies

Certifications

AWS Certified Cloud Practitioner

Facundo Parra

Back end developer

Argentina

Summary

I stand out for being proactive in finding solutions, teamwork, and camaraderie. Very focused on my work and responsible. Always seeking new challenges that serve my experience and professional growth. Always well-disposed and looking for good development both personally and for the team I am part of. I adapt easily to changes and learn quickly.

I am a full-stack developer, mainly working as a backend developer but also possessing frontend knowledge and handling frameworks for problem-solving.

I have knowledge in Amazon Web Services, consuming REST APIs, SAML, databases such as MySQL and DynamoDB, creating Lambdas in NodeJS, and extensive knowledge of JavaScript.

Experience

CloudHesive LATAM
