ALEX MANUELIAN

DEVOPS ENGINEER

with focus in Network Automation & Cloud

ABOUT ME

I am a DevOps Engineer with a strong background in network automation and scripting. I am highly motivated, energetic, and dedicated to my professional development. I am constantly seeking opportunities to expand my skillset and stay current with the latest technologies.

PROFESSIONAL EXPERIENCE

Avature **/ May 2023 – Present**

DevOps Engineer - Networking

As part of the Cloud Services organization, my responsibilities include: Optimize deployment and automation of the network infrastructure -both Cloud and On-prem- leveraging Infrastructure as Code (Terraform and Ansible). This involves managing Security Groups, VPCs and Transit Gateways to ensure the smooth operation of services for internal customers.

Cisco Systems **/Aug 2019 – Apr 2023**

Global Systems Engineer

Support of 15 global Enterprise customers across the LATAM region. Provide technical assistance and solution design to address their business needs. Train and keep work teams updated on different technologies.

Projects and highlights

- Speaker at DevNet Create 2021 – Session "Meraki MV APIs + **AWS** Rekognition = Powerful image analytics!"
- Helped ExxonMobil to develop a Tool leveraging **RESTCONF** + **Ansible**, which helped them to save up to 8 men-hours every 100 devices they needed to configure.
- Created a YouTube channel sharing Network Automation & Cloud related content in Spanish, targeting the LATAM audience.

Teclab **/Oct 2021 – Mar 2022**

Content Writer - Python

Creation from scratch of the subject "Scripting", belonging to the "Technician in Computer Networks" career.

Universidad Argentina de la Empresa **/Mar 2021 – Dec 2021**

Assistant Professor

Teach the subject "Teleinformatics and Networks I" to Engineering students.

Avaya **/May 2018 – Jul 2019**

Professional Services Consultant

Implementation and configuration of Linux based products (Call Management System, Communication Manager, among others). Continuous contact with Business Partners and big customers. Sales and technical assessment.

Claro Argentina **/Mar 2017 – Apr 2018**

Jr. Network Engineer

Implementation and troubleshooting at América Móvil's (Claro-Telmex) International network. IP & VoIP networks management. Huawei & Cisco's platforms management.

Telemar S.P.A **/Jan 2017 – Mar 2017**

Intern

Two months length internship in Vicenza, Italy. PHP & My SQL code development for an IOT project.
