Compliance Alerts

Please note businesses are responsible for conducting their own KYC (Know Your Customer) checks. The Compliance Alerts generated by this report display possible matches for business or individuals. Matches are generated using many data points e.g. name, address, date of birth, possible alias, country etc. We recommend users click on each alert to view details of the potential match and use a screening tool (like KYC Protect) to ensure that screening is conducted in line with your own business risk

appetite and internal processes.

Compliance Alerts, Compliance Risk, Indicators, KYC reports (together 'Compliance Data') are created with Creditsafe data enriched by data provided by several third-party suppliers which would not be possible for Creditsafe to guarantee accuracy.

Creditsafe Compliance Alerts screens selected business or individuals (directors, Ultimate Beneficial Owners (UBOs) using a minimum of 90% matching score, to generate alerts relating to the following categories of risk: Sanctions/Watchlists & Enforcement Agencies. The screening tool matches based on whether the entity searched is a business or individual, aliases, date of birth (with a 12-month tolerance), country and gender. If some of the data needed to match is not available the algorithm assumes a possible match. EXAMPLE: A search for "Mohamed Ali" with no residential country but with a date of birth and a Director of a UK company gives a 100% match. Mohamed Ali is a very common name and often regulators do not store date of births of persons on watch lists. The address of his work is also not taken into account as it is not a confirmed legal personal residence. A 100% match does not mean the Director in question is a match. We must look at the details of each potential record reported.

The compliance data is not intended to be used as the sole basis for any decision making and is based upon Creditsafe data that has been enriched with data provided by third parties, the accuracy of which it would not be possible for Creditsafe to guarantee. The Service is provided without warranties of any kind, whether express or implied and no representations are given in relation to the information provided. Creditsafe seeks to exclude any liabilities that may arise out of the use or misuse of the information.

NOTE: Compliance alerts have no impact on a company's credit score and are made available to simplify the process of conducting your own compliance checks only. Large reports with more than 50 names to screen, will not be generated. This limit will increase in the future.

Activities

Principal Activity

Activity Description	The target Subject is mainly engaged in the design, procurement, construction, offshore installa tion, commissioning and maintenance of offshore oil and gas development projects, as well as li quefied natural gas, offshore wind power and refining projects.
Business Scope	General contracting of the project; Design of petroleum and natural gas (offshore oil) and con struction projects; Undertake planning consultation and evaluation consultation of petroleum and natural gas projects; Undertake construction of various offshore oil construction projects and other offshore engineering construction; land petrochemical engineering construction; Undertake the manufacture and installation of various types of steel structures and grid projects; Design and manufacture of pressure vessels, design of pressure pipelines; Research and develop ment, manufacture and sales of electrical instrument automation products; quality control and testing, physical and chemical, surveying and mapping and related technical services; Operating the export business of self-produced products and technologies of the enterprise; Operating the raw and auxiliary materials, instruments and meters, mechanical equipment, import business of spare parts and technology; Operating the processing of materials and "three to one supple ment" business; Contracting overseas offshore oil projects and domestic international bidding projects; Contracting the survey, consultation, design and supervise the project; Export the equipment and materials required for the above-mentioned overseas projects; Dispatch the labor service personnel required for the implementation of the above-mentioned overseas projects; Transport of ordinary cargo ships along the domestic coast; Transport of ordinary cargo on inter national routes; self-owned house leasing; Sales of steel, pipe fittings, cables, valves, instruments and meters, hardware and electricity (projects subject to approval according to law can only be carried out after approval by relevant departments)
Industry Description	This class includes:- construction of industrial facilities, except buildings, such as:* refineries* chemical plants- construction of:* waterways, harbour and river works, pleasure ports (marinas), locks, etc.* dams and dykes- dredging of waterways- construction work, other than buildings, such as:* outdoor sports facilitiesThis class also includes:- land subdivision with land improve ment (e.g. adding of roads, utility infrastructure etc.)
