Trade Payment Data is real life payment experiences gathered from selected third party partners big and small who send us trade payment information on their complete sales ledger.

The Age of Debt Graph highlights the current Age of Debt of a given company. The graph is separated into 5 categories. Generally, Within Terms and 0-30 days are a reasonable time for a company to pay their invoices and showcases good invoice payment whereas anything beyond that is indicative of poor invoice payment.

Share your risk intelligence with over 8,000 Creditsafe contributors and create your Trade Payment story

Payment Analysis

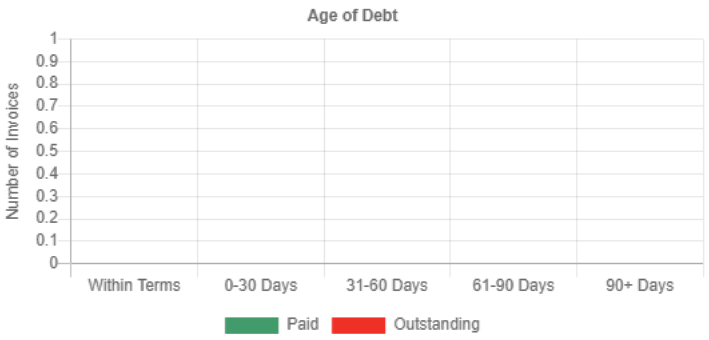

Payment Information Summary

Invoice Data & Aged Debt

Average Invoice Value	-
Invoices Available	-
Paid	-
Outstanding	-

Trade Payment Data is real life payment experiences gathered from selected third party partners big and small who send us trade payment information on their complete sales ledger.

The Age of Debt Graph highlights the current Age of Debt of a given company. The graph is separated into 5 categories. Generally, Within Terms and 0-30 days are a reasonable time for a company to pay their invoices and showcases good invoice payment whereas anything beyond that is indicative of poor invoice payment.

Get Connected! You can help Creditsafe improve payment reporting across the world by joining our payment information network

Share

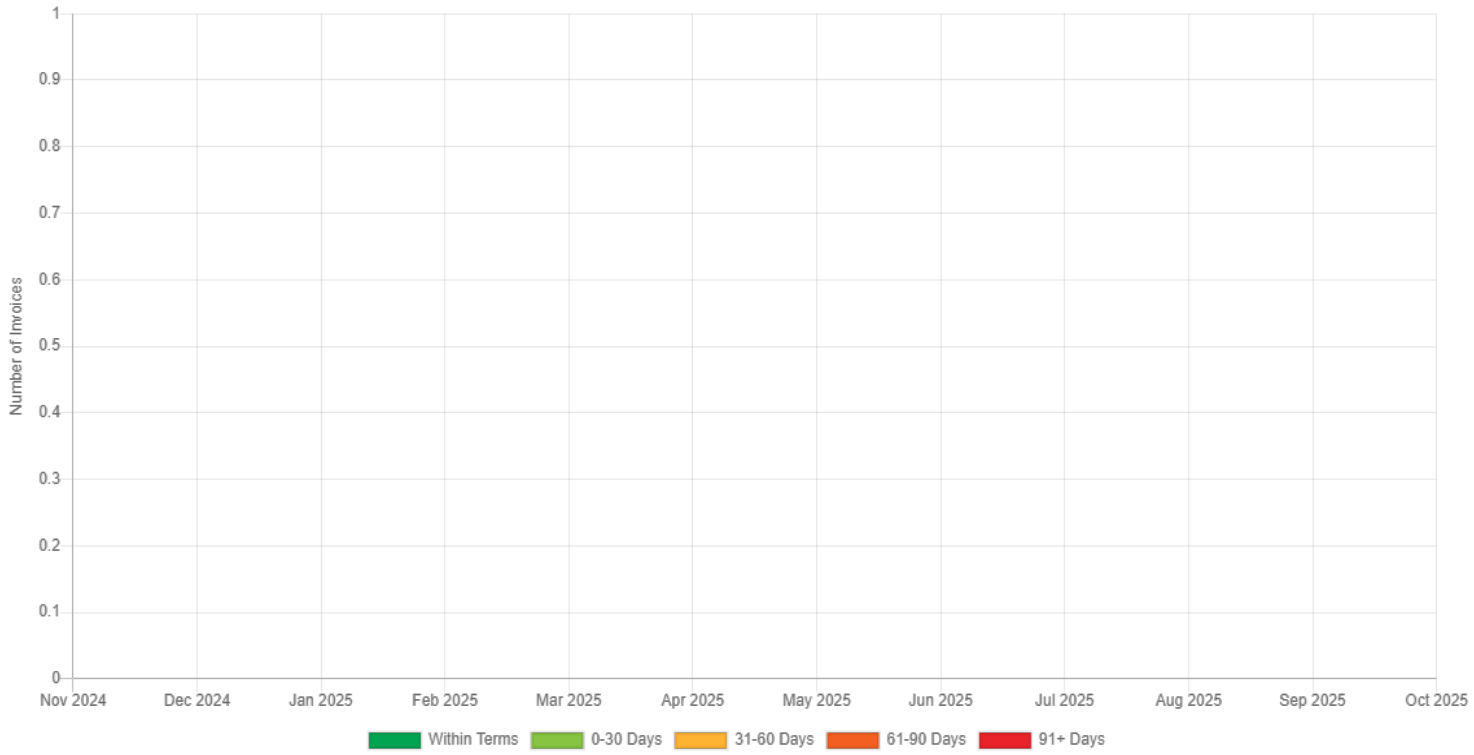

CCJ Data Trends

Due to this company having no DBT information, the CCJ Data Trends graph has not been generated

Accumulative Invoice Trends

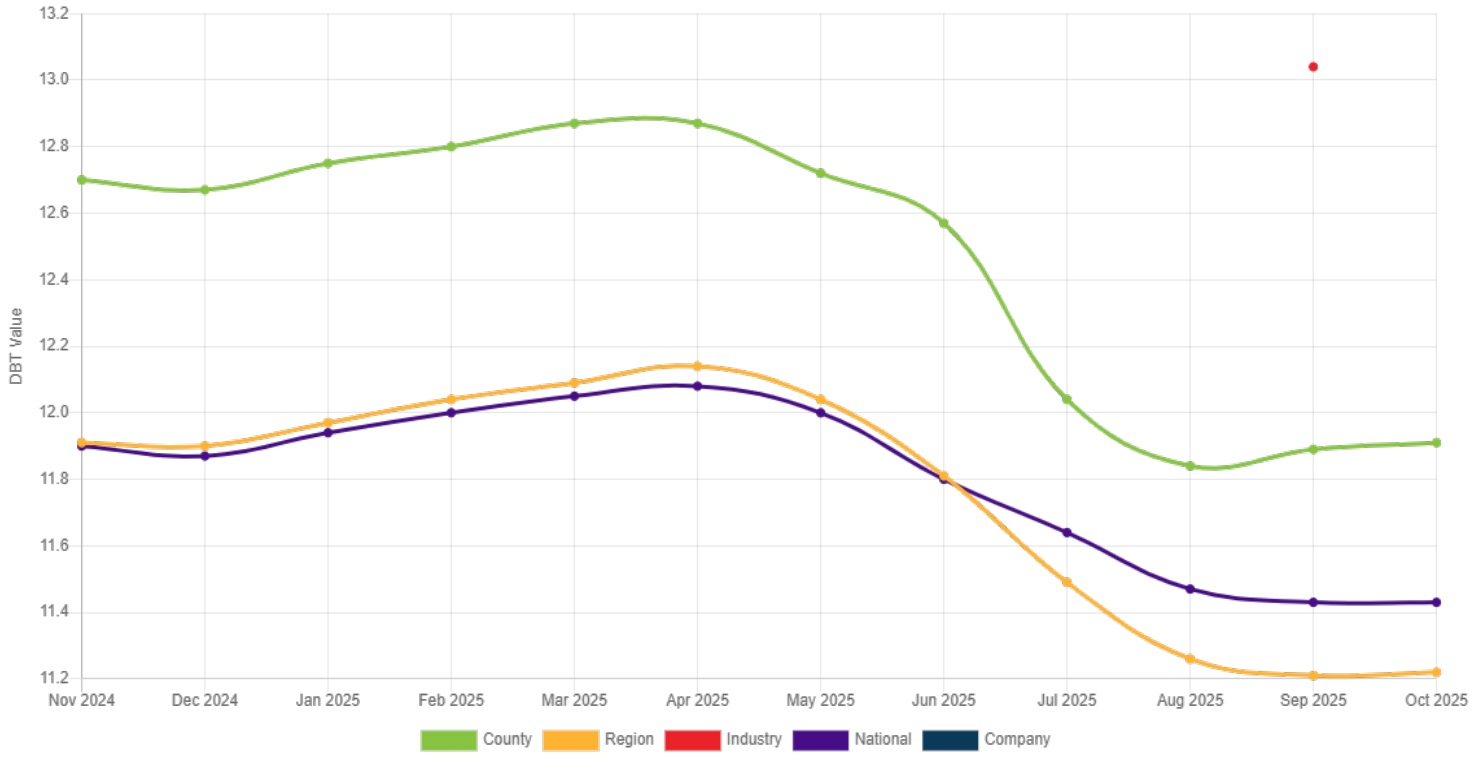

- This company does not contain any records in regards to invoices being paid Within Terms
- This company does not contain any records in regards to invoices being paid 0-30 Days
- This company does not contain any records in regards to invoices being paid 31-60 Days
- This company does not contain any records in regards to invoices being paid 61-90 Days
- This company does not contain any records in regards to invoices being paid 91+ Days

The Accumulative Invoice Trends graph shows the invoice payment trends that a given company has over a period of time. This displays the current on-going payment performance of the company and the ability to predict future payment patterns. Areas that are marked as grey, indicate months where the invoice data for the company is missing. Instead, the averages of the two non-missing points is used instead.

Days Beyond Terms (DBT) Trends

This graph indicates the average Days Beyond Terms (DBT) the company itself takes to pay their invoices This is also compared to the average DBT of companies in the same county, region and industry. The UK national average is included for your reference.
