ABOUT PURA ENERGÍA, INC.

leading the clean energy revolution in Puerto Rico since 2008

our organization

Pura Energía is a local Puerto Rican company dedicated to the design, installation, service, and financing of renewable energy systems serving homeowners, commercial and industrial entities, as well as non-profit institutions and government agencies. Our team consists of a diverse set of highly experienced professionals that is second to none in the industry.

our differentiators

- Unique capabilities of local engineering, procurement, and construction (EPC) services coupled with high end operations & maintenance practices.
- Supplier partnerships to deliver first-class equipment and materials.
- Experienced, qualified, proven in-house engineering & troubleshooting.
- Commitment to our island and the delivery of critical services for all.

Values in Action

The team at Pura Energía believes in delivering the most comprehensive solutions to meet our island's critical energy infrastructure needs. We take pride in the recognition we've received over the years as we deliver service based on our core values of **commitment, integrity, excellence, ownership, and trust**.

2018

Puerto Rico Energy Security Initiative

Launched partnership with sonnen and del Sol Foundation to develop community energy oasis around the island after Hurricane María.

2020

POWER's Distributed Energy Award

Solar Schools Project, solar + storage project partnership with Blue Energy Planet and the American Red Cross.

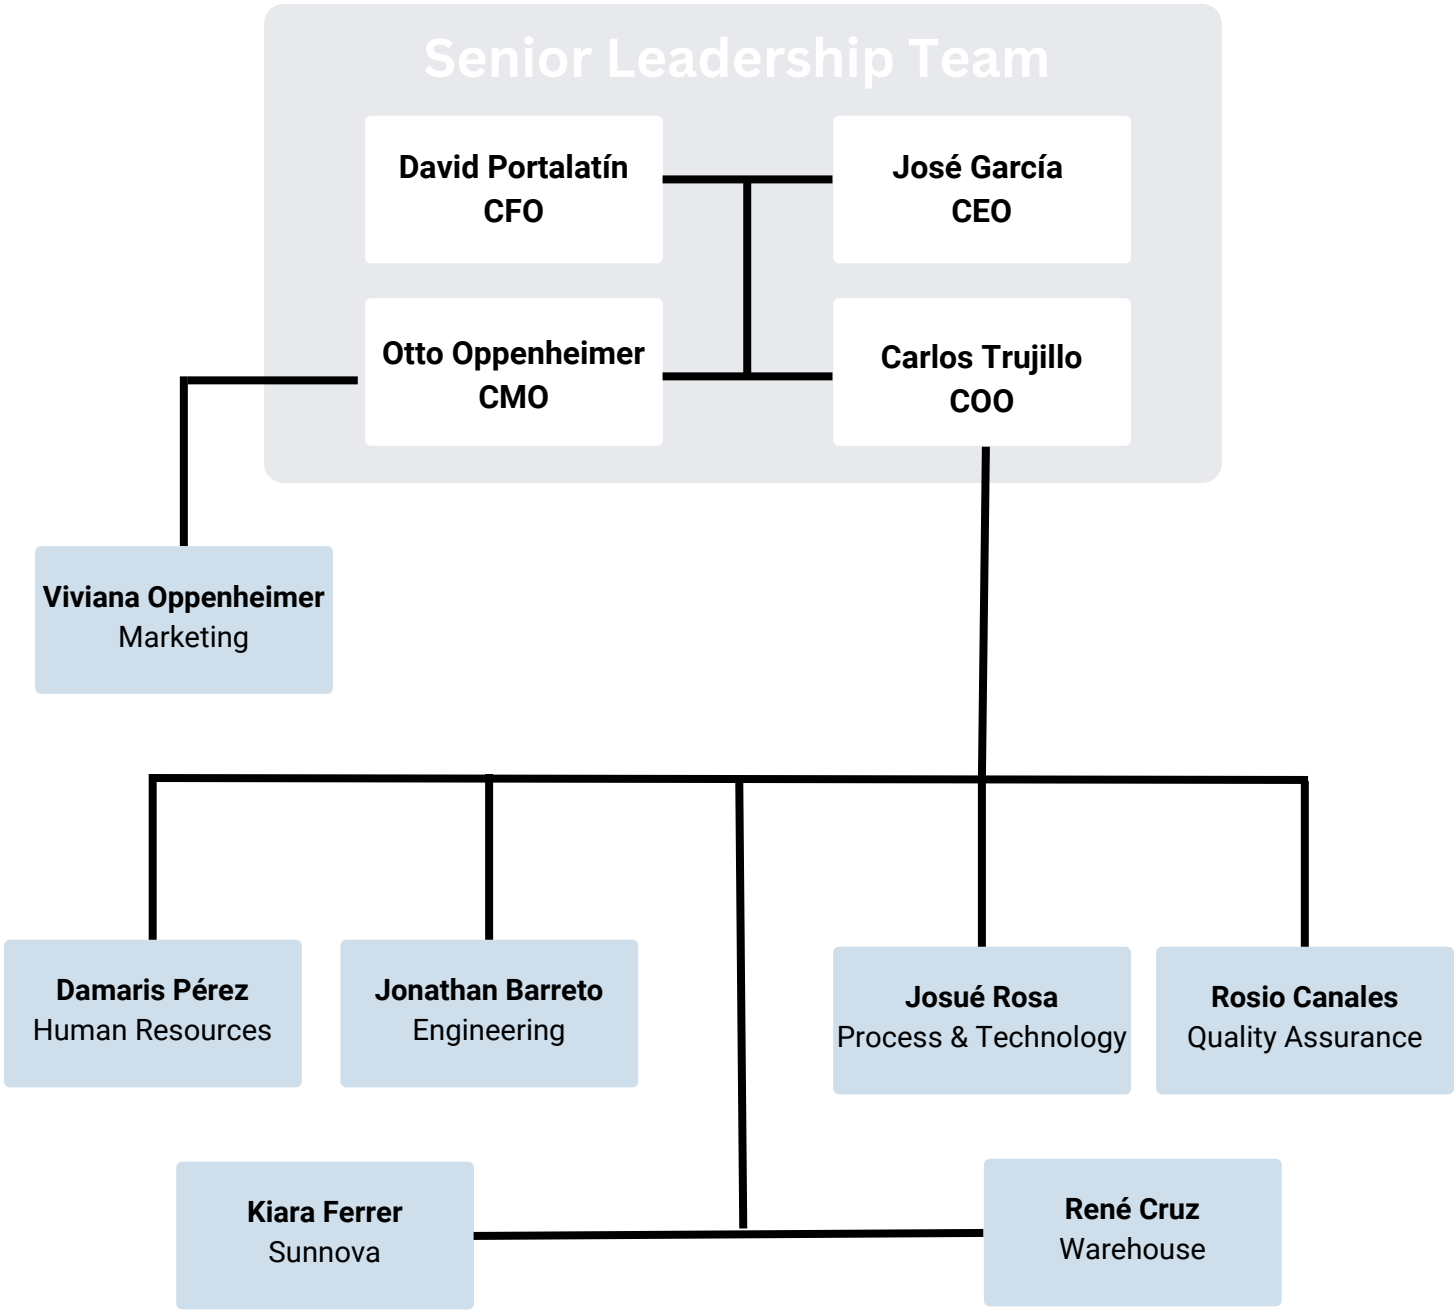

2022

Caribbean Renewable Energy Forum Best ESG Project

Cossma Yabucoa Clinic was a solar + storage installation in partership with Elum Energy & The Clinton Foundation.

PURA ENERGÍA

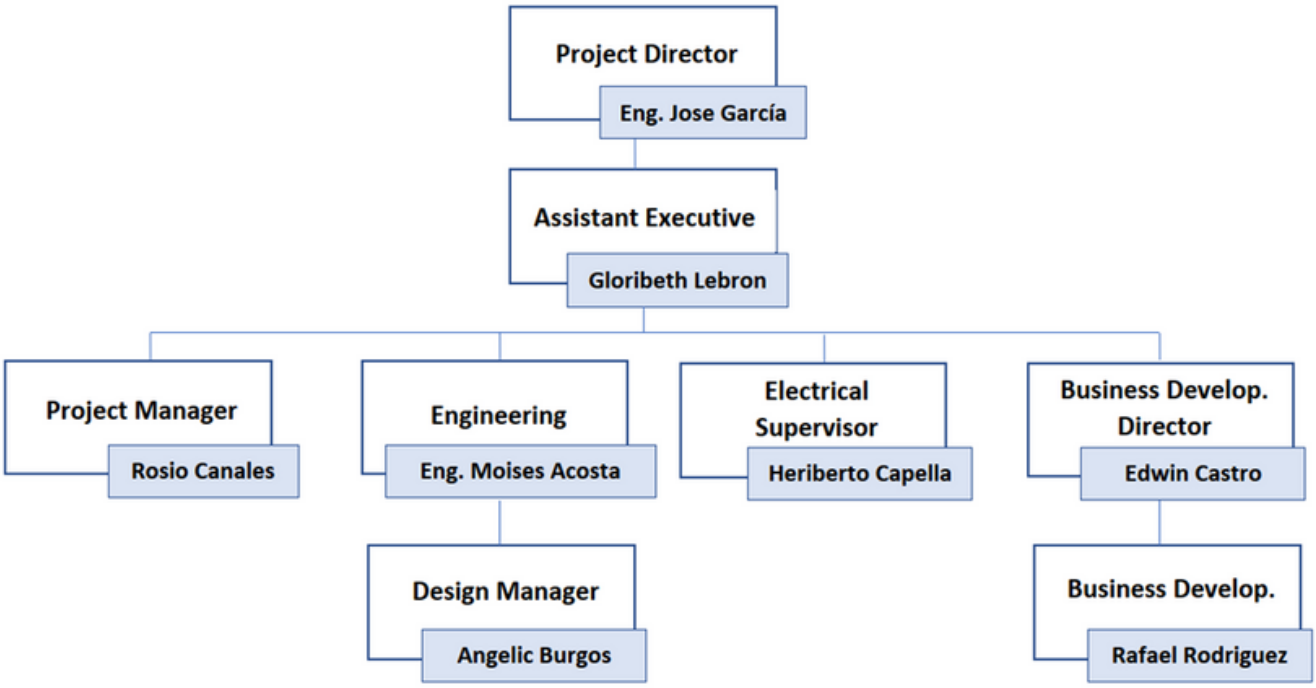

COMPANY STRUCTURE

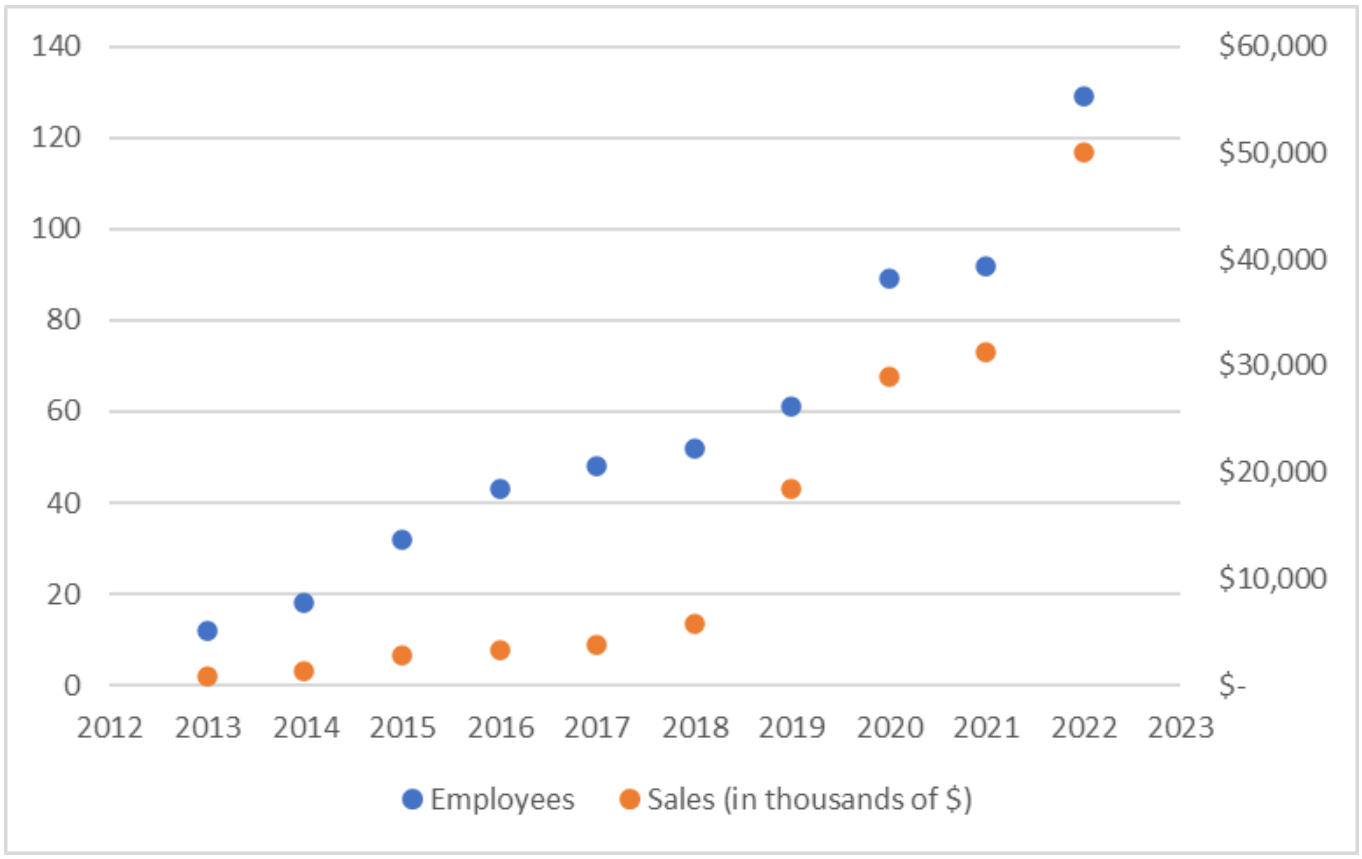

PROJECT TEAM STRUCTURE

Pura Energía has a focused Commercial & Industrial team dedicated to the turnkey delivery of the most robust and complex PV engineering projects, battery energy storage systems (BESS), microgrids, and hybrid power plant designs.

Commercial & Industrial Business Unit Chart

Company Growth as an Indicator of Core Strengths & Performance

Our team started small, catering to the needs of residential and small commercial clients around the island. We have pioneered innovative projects of larger scope and scale over the years, and with said work our team and sales have grown. We are now proud to support local businesses as well as major facilities in the pursuit of energy independence and security.
