

3A GROUP

COMPANY PROFILE

THE FIRST THING WE BUILD ARE RELATIONSHIPS.

ABOUT US

With over 30 years experience in the construction industry for the commercial and industrial sectors in Puerto Rico, mainland US and the Caribbean, 3A Group offers the strength and stability of a large general contractor, while maintaining the relationship-first approach of an exclusive firm. Our people love what they do, and it shows in their entrepreneurial spirit, in their desire to create environments that strengthen our communities, in the enduring relationships they build, and in the pride they take in their craft.

WHAT WE DO

We build every project with the intention of exceeding our clients' expectations for safety, quality, functionality, and aesthetics - ultimately delivering finished products that stand the test of time. Our value begins long before breaking ground and endures long after project delivery.

OUR MISSION

To deliver the highest level of quality, cost-effective results, on time and within budget. We hire and support employees that are constantly trained and motivated to exceed the needs of our clients. We value the importance of our relationships with our staff, customers, vendors and partners in accordance with our core values and corporate philosophy. Our passion for safety, protection of the environment and staying current with the newest technology in the industry will not be surpassed by any other company in the market.

OUR APPROACH

Integrity, Quality, Trust

Loving what we do is only part of the equation. We are proud to offer a unique approach to the construction experience, one that puts our client's needs first and contributes to a total service package that is unmatched in the industry.

1st

SAFETY

A never-ending focus on safety is at the heart of everything we do as a company. For us, zero is the only acceptable goal.

QUALITY

We believe in doing it right the first time, every time, and place incredible value on industrious planning and stringent quality control.

DIVERSITY

We revel in the unique opportunity to work with such diverse people from so many fields of construction.

TECHNOLOGY

We use advanced digital tools to add value throughout the entire project, streamlining collaboration and increasing efficiency and effectiveness.

PERFORMANCE

Our ability to self-perform key construction operations enable us to have greater control over a project's cost and schedule.
