TOPSIGNAL is tier 1 satellite dish manufacturer in the industry. Differentiating from those low end satellite dish manufacturer, TOPSIGNAL is mainly supplying products to TV operator market which has strict quality requirements.

Upon the request of our clients, we started to make LNB at the beginning of 2011. With the help of huge dish export quantity, our LNB quantity has increased quickly. Besides standard universal Ku LNB series, we have developed a lot of special LNB for our TV operator customers, such as famous Ku one cable solution (2 L.O., 3 L.O. or even 4 L.O), DCSS LNB etc..

We have close and strategic cooperation with research institutes and satellite companies in China. With their technical supports, we have developed VSAT antenna (1.2M, 1.8M, 2.4M, 3.7M and 4.5M), mobile antenna and marine antenna. Besides regular TVRO dishes, TOPSIGNAL is trying to penetrate into high end and high tech market.

We contribute our success to strong supports from our faithful customers, suppliers with team spirit, accommodating government and financial institutes. Based on the principle of mutual benefits, we are willing to establish long term cooperation with friends in industrial and commercial circles throughout the world.
