ALi Corporation

Company Profile

Corporate Overview

- **Founded**: 1987
- **Employee**: 393
- **HQ**: Taipei, Taiwan
- **Branch**: China, Korea, India, Switzerland and representative at Mexico, Brazil, Russia
- **IPO:** Taiwan Stock Exchange 2002
- **Focus**: Top 3 global leaders in Set Top Box system-on-chips SOC with 1B unit shipments

ALi Corp

Milestone & Achievement

1987
Founded

WW Top 3 System SOC
1987, Acer LAB

1999
IPO

WW Top 3 Servo Solution
1993 Spin off from Acer

2002
Listed on TW Stock

WW TOP3 DVD Player SOC
Expand into digital multimedia IC sector
2004 Acquired by MTK

2011
Retail STB SOC

WW Top 1 Retail STB SOC Vendor
WW Top 2 Audio SOC Vendor
WW Top 3 mp3 SOC VEndor

2017
PayTV STB SOC

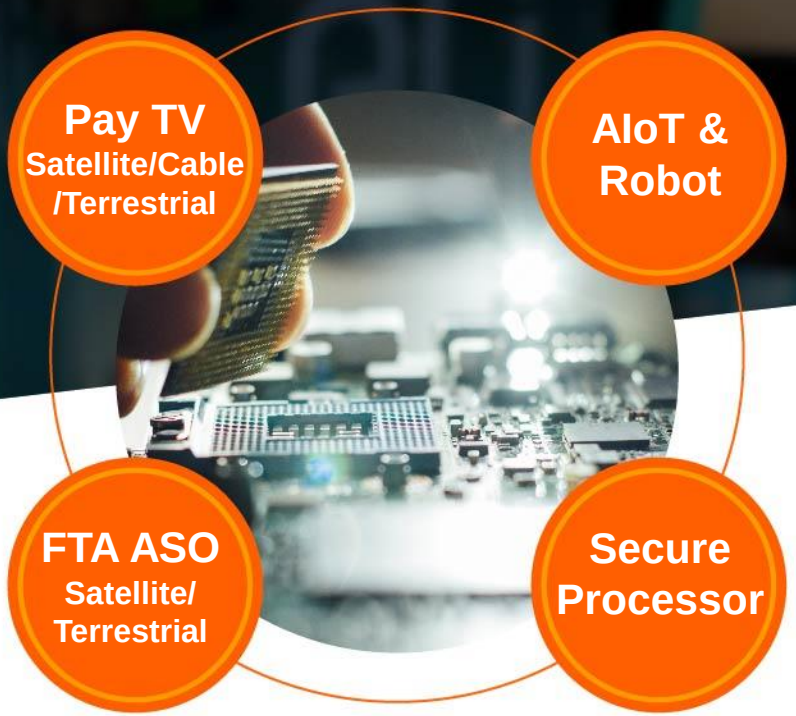

WW Top 3 PayTV SOC
Well certified by Security Vendors
Start Investing into smart Audio technology

2018
Smart Audio & Robot SOC

Smart Audio & Robot Platform forming
Targeting Smart Home Appliance
Launch at 2019

ALi Product Portfolio

- Established solution for emerging markets
- Over hundreds MSOs have deployed ALi based STBs
- Strong development program for hardware based security since 2010

- Smart Audio SOC with Edge Computing and Security
- Robot SOC Platform with Algorithm integration

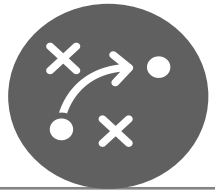

- Leader in Terrestrial ASO Program
- Target FTA satellite channel growth in emerging markets leverage Western Europe FTA Market

- WW No1 market Share of CAM
- Module Extension to USB CAM

Strong Technology Portfolio

IP/Technology Development

Multiple technology SOC/system integration

Unify Platform SDK/HDK development

Solid/Constructive/Creativite IP/SOC/System Design,. Thoughtfully close to customer expectation

- Strong Security Know-how and HW architecture
  - HW/SW compatible acceleration design
  - System/PCBA compatible design with Chipset CP value
- AI Engine/ASIC development

- Heterogeneity CPU integration
  - PCBA/System total solution offering
  - Mature FAB process with the best CP value
- Constructive/Solid chipset Validation

- Unify driver Interface cross CPU/OS
  - Mature Linux/RTOS software with security technology integration
- Friendly developer environment with timely customer support
- SDK/HDK Open Platform

Patent Portfolio

- ALi's patents for STB chipsets and system solutions:
  - ~500 Patents, not include the CPU/GPU/Op Storage/IO
  - Digital Circuit/Mixed Signal for STB Chipsets
  - Communications
  - Video & Audio CODEC/Display Engine
  - SoC
  - System Software/Application/User Interface

To ALi's knowledge and belief, that at the declaration date there are no pending claims or actions commenced against ALi for infringement by any third party patents. ALi owns and retains all property and proprietary rights of ALi IP designed or developed itself or has acquired suitable license from third party licensors.

Strong and Health Finance

✓**Strong Balance Sheet:**

Total Assets: US$145M

Liquid assets: US$100M

- Cash: US$23M
- Others: US$77M

Non-current assets:US$45M

✓**Debt-free and bank facilities at hand**

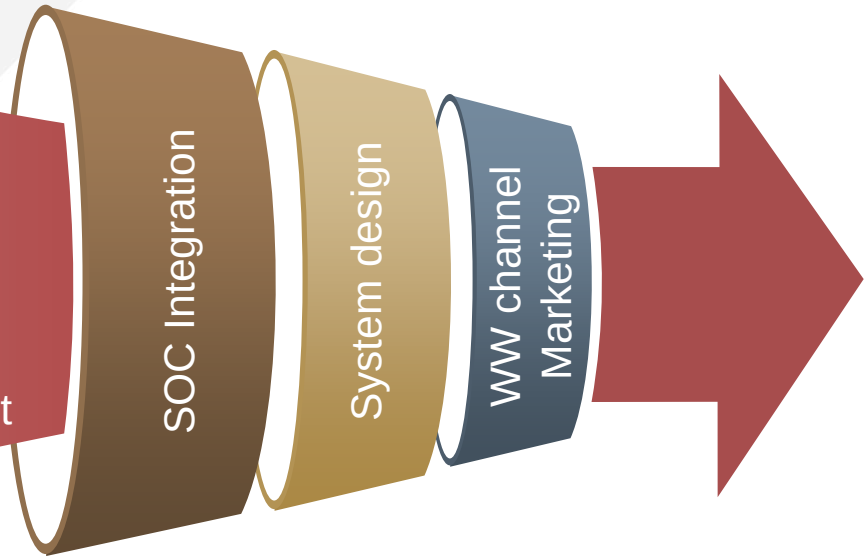

Worldwide Deployment

- ALi footprint rapidly expand to emerging countries benefit from digitalization
- Deployed over 150 MSOs worldwide and still accumulating
- Well established Retail Channel and expand to home appliance

Thoughtful Deliverable and Service

- ALi/MIPS/ARM CPU
- RTOS/Linux OS
- Security knowhow
- Video/Audio pipeline
- 55/40/28 nm process
- Effectively Go2Market

- **SOC integration**
  SOC integration need certain scale and experience to create CP valuer.
- **System design with OS support**.
  Certain customization, competing at "solution" design,
- **WW retail Channel Marketing**
  Reduce time2market with remarkable visibility, shorten the period of eco-system establishment.

Our Vision And Mission

Vision

Open, Transparent, Pragmatic and Fast Reaction
Devote into SOC industry, Optimize Industry Efficiency

Mission

Stick to Set-Top-Box SOC Business
Innovated AI Industry
Best Solution for all Edge Devices

ALi®
