PRESCO
OILFIELD SERVICES

Services Presentation

PRESCO IN A NUTSHELL

Was established in 2008 as an insourcing company from **CEMZA GROUP**.

Over time we have become an Offshore and Onshore solutions company for Oilfield Services and personnel & safety solutions for the Oil & Gas Industry in Gulf of Mexico.

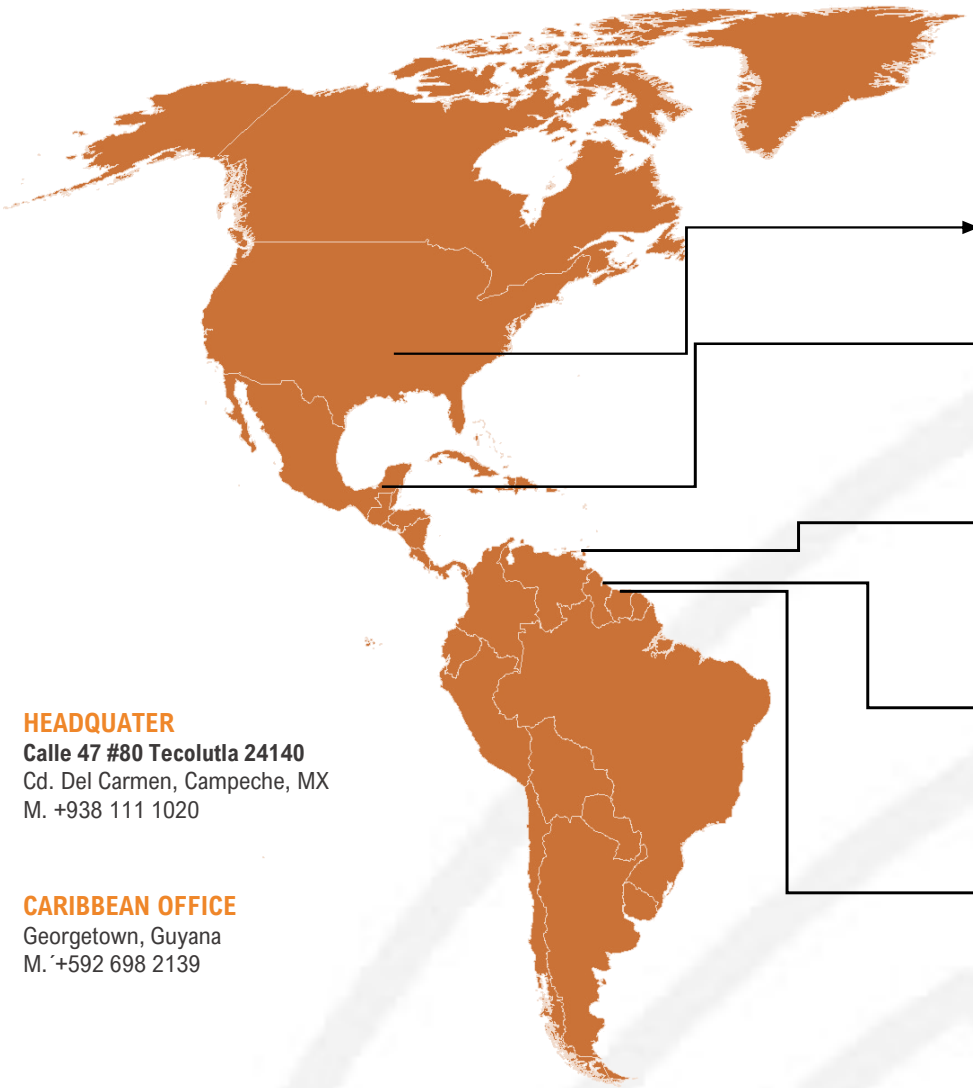

In 2021 **PRESCO GUYANA** was established with the objective to take our experience in the Oil & Gas operation to the Caribbean region.

Our value proposition is completed by the provision of engineering personnel on consulting basis, Operations personnel and manpower outsourcing for your needs, specialized training as well with state-of-the-art certified personnel protective equipment.

PRESCO brings to the table more than a decade of Expertise operating in the challenging environment of the GoM, with a track record of success histories, maximizing the life well cycle and optimizing the ROI for our customers and the knowledge transfer for the Guyanese market.

WE FIND AND DEVELOP GREAT LEADERS

Since 2009 we have been helping companies and individuals undergo transformations. We help companies attract the right talent, enabling them to transform their business results, their culture and their reputations. And we help individuals find the right companies, enabling them to transform their careers.

Our exceptional consulting team is composed of talented individuals with extensive industry-specific experience and an in-depth understanding of the diverse business cultures and economic trends.

We provide an exceptional service to all our clients and candidates by utilizing our industry expertise, market intelligence and local knowledge, and by being courteous, transparent and honest at all times.

OUR INDUSTRIES

We drive organizational success by finding the right leaders within the different industry with solutions tailored to unique needs.

HEADHUNTING & EXECUTIVE SEARCH

We know it is not enough to simply identify someone with the right experience. Our goal is to deliver great leaders. Our 360 executive recruiting consultants possess the expertise and contacts to best support our search. We combine deep industry and functional knowledge with a proven executive search and assessment process to help you find leaders who best fit your organization's unique needs and will have a lasting impact.

PROFESSIONAL SEARCH

We are specialists in the recruitment of specialized positions with high technical specifications for the industry. We have experience working with the most important companies in the sector.

Whether a new project, organizational change, or geographic expansion, our innovative approach lets organizations maximize resources and put the right talent in place to drive businesses forward.

By listening, examining, and understanding our client's strategy and culture, we are able to identify the ideal FIT between technical skills, competencies, personality, and the correct adaptation of the personnel.

CREWING SERVICES

Managing a pool of highly skilled seafarers, working across a diverse variety of vessel-types, PRESCO can service all crewing requirements.

Our crew management experience encompasses every aspect of manning vessels and offshore platforms. We can make all the administrative and practical arrangements to get crew to where they are needed when they are needed and provide on-going support to meet your every requirement

- Secure Entry to Confined Spaces
- Laws and Regulations of HSE
- Basic Critical Procedures for Work at Heights
- Use and Management of SCBA
- Interpretation of the Standard ISO 14001
- Others…

LOCAL CONTENT

NAMAKA COMPLIANCE

PRESCO in partnership with Namaka Compliance brings Bridging the Skills and Suppliers gaps as the answer to managing resources and organizations in the international operational energy sector.

- Bridging the Skills Gaps involves local nationals being assessed by a 3-phase operation to ensure that they are not only trained but competent. All staff will be capable and competent in developing the necessary skill sets that allow them to fulfil key operational roles safely.
- Bridging the Suppliers Gaps involves taking locally nationally owned companies/suppliers in their respective countries and enhancing their capability to engage with and tender to international organizations on major energy projects.

PPE & WORK TOOLS

PRESCO supplies everything your staff need for their operations. All our products are certified and meet the current regulations.

With more than 12 years of experience in the field and knowledge in the industry, PRESCO has specialized supplying protective and safety equipment and can offer advice and counseling concerning:

PPE & EQUIPMENTS SOLUTIONS

- ✓ Risk assessment concerning work tasks and environment.
- ✓ Identification of solutions and products that will offer adequate protection and can safely be combined with other protective equipment and workwear.
- ✓ Training for the correct use of equipment
- ✓ Inventory management.

User safety is always our highest priority. We are happy to offer our experience, knowledge, and solutions, so our clients can do their work – safely and comfortably.

SIMPLE AND EFFICIENT SOLUTIONS FOR SUPPLIES AND LOGISTICS, WHICH IS EASY TO ADAPT TO YOUR COMPANY

PROCUREMENT SOLUTIONS

We are proud of our supply chain system used for planning, organization, and ensuring goods in stock, and we have a highly flexible warehouse and logistics solutions to get our products out to our customers quickly – regardless, the corporate structure of the customer in question.

SAFETY STOCK

Based on an agreement between **PRESCO** and the client, defining which products are to be in stock, in which quantity, and a maximum and minimum stock point.

RETAIL CONSIGNMENT

By consignment agreement, **PRESCO** provides an inventory quantity planned to be on the client's warehouse, The amount of inventory needed to compensate for variation

CONTAINER SOLUTIONS

By arrangement, **PRESCO** delivers container stocked with a pre-defined range of work clothes, safety footwear and personal protection equipment.

PERSONAL PROTECTION EQUIPMENT

PRESCO supplies protection equipment to users with extreme needs for safety: oil and gas, construction, mining, and the energy industry.

We always collaborate closely with end-users, to be able to understand and meet their demands with complete solutions for personal protection. For equipment we do not manufacture ourselves, we are in close cooperation with many innovating suppliers, and can deliver total solutions for personal protection equipment products such as:

- Safety Shoes
- Work Gloves
- Helmets
- Eye and Hearing Protection
- Fall Protection Equipment

Ansell · wenaas · PORTWEST · MSA · DuPont Nomex · BERRENDO · 3M · Dräger · Honeywell

GAS DETECTION & AIR SUPPLY

In many industrial facilities, employees must work in areas where hazardous substances are present, or where the level of oxygen and toxic substances may change at any time. Gas detectors and respiratory protective equipment are essential and must be used as protection.

- Industrial Self-Contained Breathing Apparatus (SCBA)
- Airline And Compressed Air Systems
- Rescue And Escape Equipment
- Air Purified Respirators (APR)
- Gas Monitoring Systems
- Portable Gas Detectors
- Fixed Gas Detectors

FLAME RETARDANT
COVERALLS

PRESCO FR COVERALLS provide superior protection against heat, fire, and electric arc. Our designs allow lightweight and comfortable solutions that meet or exceed industry standards.

Our coveralls are manufactured with specially designed fabrics to provide comfort and protection against heat, limited flame spread, molten metal splash, electrostatic charges, and electric arc.

We comply with the current regulations that guarantee the high quality of our products.

NFPA 2112-2018 · EN ISO 11612 · UL · OEKO-TEX® CONFIDENCE IN TEXTILES STANDARD 100

Our Textile Division can develop high tech workwear with truly special properties to fit the client's needs.

In many cases, the same workwear has to meet more – and different – safety requirements, while comfort remains an important supplementary factor for all the professional groups to whom we deliver workwear.

PRESCO also supply specially designed workwear and complete collections tailored to match the customer's wishes and requirements exactly. Some companies have specific, practical needs, while others want workwear that reflects their own profile and image.

DUPONT™ NOMEX® COMFORT

Innovative Comfort, Proven Protection

DuPont™ Nomex® Comfort is the latest innovative fabric solution developed by DuPont scientists for workers in the oil & gas, petrochemical and general manufacturing industries. When it comes to serious workplace hazards such as intense heat and flames, Nomex® Comfort provides the same high levels of proven protection as Nomex® IIIA in a lightweight, breathable, quick-drying fabric, thanks to its unique fabric technology.

Advantages of Nomex® Comfort fabric:

- Provides protection day in and day out because the inherent heat and flame resistance of Nomex® Comfort fibers cannot be washed out or worn away.
- Feels more comfortable because Nomex® Comfort fabric absorbs and holds significantly less moisture than fabrics made with cellulosic fibers, such as cotton and viscose, while also being quick-drying.
- Reduces heat stress and feels cooler for longer because the fabric is lightweight and breathable.
- Looks like new after repeated washings due to excellent durability and laundry colorfastness.
- Available in 4.5 oz/yd² ringspun plain weave and 6 oz/yd² ringspun twill fabrics in a range of colors.
- Garments made of Nomex® Comfort, both 4.5 oz/yd² and 6.0 oz/yd², have been third-party certified to NFPA 2112 *Standard on Flame-Resistant Clothing for Protection of Industrial Personnel Against Short-Duration Thermal Exposures from Fire.*
- 4.5 oz/yd² fabric arc rating **ATPV = 6.1 cal/cm²** (Category 1) tested to standard ASTM F1959/F1959M-14e1.
- 6.0 oz/yd² fabric arc rating **ATPV = 7.6 cal/cm²** (Category 1) tested to standard ASTM F1959/F1959M-14e1.

Typical physical properties

Property	Standard	Units/Description	Nomex® Comfort 6.0 oz/yd²	Nomex® Comfort 4.5 oz/yd²
Basis weight	ASTM D3776	oz/yd²	6.0	4.5
Tensile strength (Grab test)	ASTM D5034	Warp (lbf) Weft (lbf)	285 156	186 162
Elmendorf tear	ASTM D1424	Warp (lbf) Weft (lbf)	13.6 10.2	10.5 10.9
Vertical flame	ASTM D6413	Afterflame (secs) Char length (in.) Melting or dripping	‹2 ‹4 No	‹2 ‹4 No
Thermal protective performance (TPP)	NFPA 1971 Section 8.7	Spaced (cal/cm²) Contact (cal/cm²)	14 9	10 7.5
Dimensional stability after 5 cycles	AATCC 135	Warp (%) Weft (%)	‹3 ‹3	‹3 ‹3
Thermal shrinkage	NFPA 2112 Section 8.4	Warp (%) Weft (%)	‹5 ‹5	‹5 ‹5

Predicted body burns

PRODUCT	TOTAL PREDICTED BURN INJURY % (PROTECTED + UNPROTECTED)	LOCATION
Nomex® Comfort 4.5 osy	30.3%	NCSU–Raleigh, NC
Nomex® IIIA 4.5 osy	38.3%	NCSU–Raleigh, NC
Nomex® Comfort 6 osy	18.9%	NCSU–Raleigh, NC
Nomex® IIIA 6 osy	20.2%	NCSU–Raleigh, NC

Fabric composition

93% DuPont™ Nomex® meta-aramid

5% DuPont™ Kevlar® para-aramid

2% Carbon/nylon antistatic fiber

Pilling

Fabrics made with Nomex® Comfort may be susceptible in varying degree to pilling on their surface. Differences in fabric processing, as well as differences in how garments are worn and cleaned, can produce different levels of pilling. The FR properties of Nomex® Comfort fabrics are not affected by the level of pilling.

Colorfastness

Fabrics made with Nomex® Comfort are available in many colors. Due to the color change of fibers after extended exposure to ultraviolet (UV) light, not all colors may be appropriate for all applications. The FR properties of the fabrics are not affected by UV exposure. The change in color will vary according to the color chosen. If the fabrics will be subjected to significant amounts of UV light exposure (sunlight or artificial), it may be desirable to select lighter colors less likely to be affected. Garments made of Nomex® Comfort should be stored so that they are protected from unnecessary exposure to UV light.

Recommended USE and CARE for DuPont™ Nomex® Comfort fabrics

Single-layer Nomex® Comfort fabrics are not suitable for protection against molten metal splash, hot liquids or steam. Do not wear alone for structural or proximity firefighting. Do not use for chemical protection. Follow all warning, use and care instructions included in the garment manufacturer's label.

Flammable contaminants will reduce the thermal protection of any flame-resistant (FR) fabrics and the garments made from them. Wash all garments made of Nomex® Comfort fabric frequently to ensure that no grease, oil, soil or other flammable contaminants are present when the garment is worn.

For home laundering:

- Wash new garments before wearing to remove fabric processing aids and finishes.
- Launder garments separately from non-flame-resistant clothing so FR garments are not contaminated with flammable lint.
- Wash dark and light colors separately.
- Secure all zippers and snaps before washing and drying.
- Pretreat stains.
- Machine-wash in hot water (maximum 140 °F / 60 °C) with a heavy-duty liquid detergent.
- Do not use chlorine bleach or detergents containing chlorine bleach because these can cause color fading. Only oxygen-based bleach should be used on clothing made of Nomex®.
- Tumble-dry on low heat (maximum 160 °F / 71 °C).
- Do not over-dry. Remove promptly to minimize wrinkles.
- Do not use fabric softeners or dryer sheets. Other laundry additives should not be used if they are flammable.
- Removal of grease or oil stains may require dry cleaning.
- Do not store or line-dry fabrics or garments made of Nomex® in sunlight.

Take the next step and choose Nomex® Comfort

PRESCO Oilfield Services

RE: PRESCO Oilfield Services –Authorized Distributor of Wenaas Products in Mexico and All Servicing Areas

To Whom It May Concern:

Wenaas is a manufacturer of high quality Fire Retardant and Non-Fire Retardant garments and uniforms. We are a global manufacturer and operate and distribute our products worldwide. Wenaas only establishes partnerships with qualified and approved distribution partners. This letter will serve as confirmation that PRESCO is authorized and approved to sell, market, and quote in tenders involving Wenaas manufactured products in all areas it services.

Wenaas maintains exclusive rights of products and distribution channels. We value our distribution partners and as such, we have the upmost respect for PRESCO and its Management Team; and know that Wenaas products will be represented well in the important markets PRESCO services. I am confident that PRESCO will represent our brand well; and their customers will be supported and provided with exceptional service by the PRESCO Team.

Sincerely,

Steven G. Boubel
General Manager
Wenaas USA

Wenaas USA

FOUNDED IN THE 1920'S IN MANDALEN, NORWAY WENAAS HAS LONG BEEN A GLOBAL LEADER AND SUPPLIER OF WORK WEAR AND PERSONAL PROTECTIVE GARMENT SOLUTIONS.

THROUGHOUT OUR HISTORY AND GROWTH WE'VE REMAINED CLOSE TO OUR ROOTS, AS A MANUFACTURER OF HIGH QUALITY WORK WEAR, MAINTAINING THE EXPERTISE AND STANDARDS THAT WE'VE BECOME KNOWN FOR WITH ALL OF OUR PRODUCTS. WE EMPLOY THESE STANDARDS AND OUR STRONG MANUFACTURING DEVELOPMENT PRACTICES IN OUR COMPLETE PRODUCT LINE OF HEAD-TO-TOE PROTECTIVE EQUIPMENT.

It is this standard and quality that has gained us a measure of respect and confidence as a global partner and has made us, an ideal single source for all market segments. To complement our own manufacturing facilities our product portfolio includes some of the most recognizable brands in the industry along with strong relationships and international purchasing partnerships. Our experie nce in the industry, combined with international manufacturing partnerships and learned industry expertise, allows us to provide unprecedented flexibility and choice for you, our customer.

Over the last 85 Years, Wenaas has managed and facilitated the design and implementation of comprehensive safety incentive awards and programs tailored specifically for our customers and their businesses. With a global footprint spanning Scandinavia, Europe, Asia and the United States—a fully integrated one-stop-shop approach for all work wear and PPE requirements and the ability to eliminate the need for multiple suppliers, Wenaas has positioned itself as a global "from-stock" strategic partner for all of its customers. We are positioned to serve our customers needs just as we always have, providing "Global expertise, delivered locally".
