PICO ENERGY

PICO México Servicios Petroleros

Company Profile

PICO ENERGY
PICO México Servicios Petroleros

Who we are

PICO Energy is an international oilfield and marine services company offering full integrated services ranging from surface well testing, coiled tubing and pumping services to drilling fluids, downhole tools, machine shop and fabrication, projects and marine services.

Our operations spans to the breadth of three continents with our R&D center located in Houston, Texas. Our motto is continuous expansion into new territories with fit-for-purpose solutions that guarantees cost savings and win-win situations.

PICO has a global footprint and work every day to innovate the energy industry, committed to optimizing resources and taking advantage of the full potential of assets. Clients choose us for strategic solutions that add efficiency, flexibility and responsibility to any energy operation, and we face each challenge through our talented team that makes us stronger.

PICO ENERGY
PICO México Servicios Petroleros

Our history

1974.
PICO Group was established. Initially operating in trading activities, with the aim to expand regionally with a focus on four primary sectors of Agriculture, Consumer Foods, Energy and Real Estate.

1978.
Petroleum Services. PICO obtained License Number 1 in the Egypt Free Zone to be the first Egyptian free zone company to provide oil and gas services.
Drilling Jars Maintenance & Leasing. PICO became the 1st Egyptian company to maintain and lease drilling jars to the Egyptian market.

1985.
Logging services. First Egyptian company in the region to own and operate logging equipment with Gearhart technologies.

PICO ENERGY
PICO México Servicios Petroleros

Our history

1990.
PICO Oil was established. Aiming to be the first Egyptian exploration and production company dedicated to invest in the Energy sector.

1995.
PICO Oil get concession fields. First Egyptian company to own and operate oil and gas concession fields.

2002.
PICO R&D. First dedicated research and development center for the energy sector of Egypt and the region.

2006.
PICO Energy. First Egyptian holding company providing full-fledged petroleum services.

PICO ENERGY
PICO México Servicios Petroleros

Our history

2007.
PICO integrated services. Introduced total drilling management services/contracts for the oil and gas sector.

2008.
PICO technologies was established in Houston, Texas, USA. As the technology arm of the PICO Group dedicated to the design and manufacturing of sophisticated patented oil field equipment and tools.

2009.
PICO Mexico Servicios Petroleros was established. As a services company in Mexico offering PEMEX:
-Unique commercial model
-Superior technologies
-The opportunity to operate in the giant Cantrell field

PICO ENERGY
PICO México Servicios Petroleros

Our history

2009.

SAFE WOB PICO 4. PICO 4, the world's biggest state-of-the-art liftboat, was built in Louisiana, USA. PICO 4 is self-propelled jack-up barge (lift boat) under the contract with PEMEX in Mexico.

2011.

PICO Marine Certification. Obtained International Marine Certificates:

-ISM

-DOC

-SMC

PEMEX Contract. PICO Marine Services landed PEMEX contract for Cantarell field.

PICO ENERGY
PICO México Servicios Petroleros

Our history

2015.

Supply boat services. PICO Energy started up the Supply Boat Services.

AMAL C platform project. EPC Projects: awarded a mega project; AMAL C Platform in Gulf of Suez.

2018.

Venus Jack up Refurbished. It was fully refurbished to meet client's requirements for developing mature fields.

Hard Banding Services Introduction. Introduced state-of-the-art hard banding services to the Egyptian market.

2023.

PICO Mexico ISO 9001:2015 certification. Obtained ISO 9001:2015 certificate according to IQS Corporation: International Accredited Organization for Certification of Management Systems

PICO ENERGY
PICO México Servicios Petroleros

What we do

Jackup & Liftboat

With more than 15 years of experience in the marine services while operating in the Gulf of Suez and the Gulf of Mexico, PICO Energy provides a full range of marine units, AHTS, jackups and state of art Dynamic Positioning lift-boats to the offshore industry. PICO Energy's marine assets are governed by the highest standards in the industry and driven by a team with global expertise.

PICO ENERGY
PICO México Servicios Petroleros

What we do

Early production facilities

EPF provide a quick production delivery and allows monetize an asset before further process plant, also offer an opportunity to collect real-time production data, enabling them to appraise reservoir performance.

PICO ENERGY
PICO México Servicios Petroleros

What we do

Early production facilities

Our services range include drill stem testing, production testing and early production facilities. Surface well test equipment provides a safe and efficient system to separate hydrocarbon phases, to measure and collect accurate well data and importantly, to collect representative fluid samples. The data monitored includes pressures, temperatures and flow rates recorded at multiple locations on the well test package.

We also have the capacity to transmit data in real time to approved parties at off-site locations, which facilitates fast, well-informed decision making.

PICO ENERGY
PICO México Servicios Petroleros

What we do

Coiled Tubing & Stimulation

Our portfolio offers a wide range of field equipment, software, acquisition systems and chemical solutions engineered and delivered to clients' locations wherever it would be.

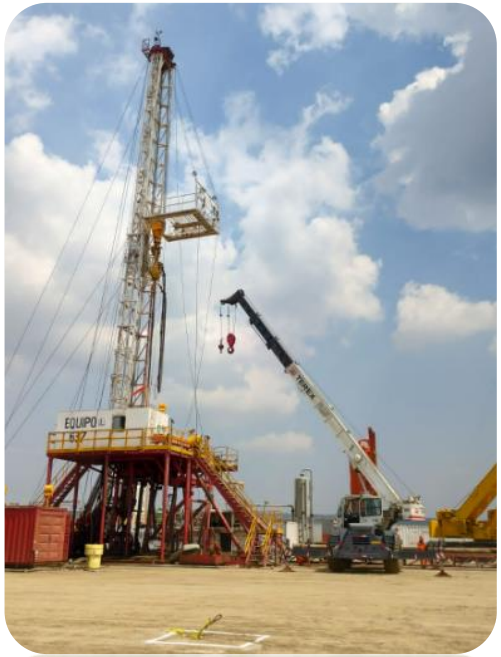

Applications include matrix and fracture stimulation, wellbore cleanout, fishing, logging, perforating, nitrogen lift, water and gas control, milling, cementing, well circulation, and mechanical isolation.

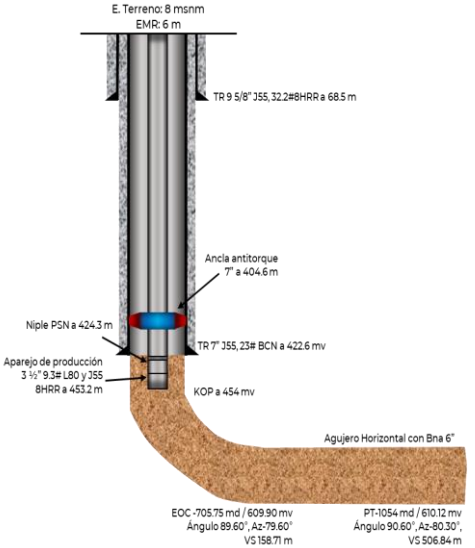

PICO ENERGY
PICO México Servicios Petroleros

What we do

Drilling Services

Our service offers an integral project management of workover, drilling and completion, proving rig equipment, directional drilling, mud logging, management pressure equipment, nitrogen and drilling fluids supply, engineering, design, reservoir study, drilling tools, cementing, and real time software.

Our 2022 drilling campaign obtained a production of 630 bpd of extra heavy oil from 9 horizontal wells.

PICO ENERGY
PICO México Servicios Petroleros

What we do

Drilling fluids

Our service include water base mud, oil base mud, foamed fluids, brines and can cover all required densities. Providing additives that increase efficiency and lower costs of each systems. Also includes engineering, laboratory test, solids control equipment, raw supply, waste management for cutting and mud.

PICO ENERGY
PICO México Servicios Petroleros

What we do

Artificial lift

Our gas lift services provide the quality and flexibility to maximize production. Gas lift installations manage abrasive materials, such as sand, H2S, and can be used in low-productivity, high-gas/oil ratio-wells or deviated wellbores.

Our Main Systems

- Electric submersible pump
- Progressive cavity pump
- Gas lift systems
- Rod lift

PICO ENERGY
PICO México Servicios Petroleros

What we do

Compression

Our compression packages cover the complete range of applications from low-horsepower / low-pressure gas to high-horsepower for sweet or sour gas, including monitoring of parameters in real time, operation and maintenance of compression equipment.

PICO ENERGY
PICO México Servicios Petroleros

What we do

Workshop & Fabrications

We provide all types of machining services utilizing different types of complex and advanced machinery to repair and manufacture drilling equipment. The API licensed machine shop has been repairing and rethreading API threads on all rotary and downhole equipment for over eighteen years. Also, we provides fabrication and welding for to some of the most complex designs, in addition to taking on complete offshore structures' refurbishment projects.

PICO ENERGY
