Compliance Alerts

Please note businesses are responsible for conducting their own KYC (Know Your Customer) checks. The Compliance Alerts generated by this report display **possible** matches for business or individuals. Matches are generated using many data points e.g. name, address, date of birth, possible alias, country etc. We recommend users click on each alert to view details of the **potential** match and use a screening tool (like Protect) to ensure that screening is conducted in line with your own business risk appetite and internal processes.

Creditsafe Compliance Alerts screens selected business or individuals (directors, Ultimate Beneficial Owners (UBOs) using a minimum of 90% matching score, to generate alerts relating to the following categories of risk: Sanctions/Watchlists, Enforcement Agencies/ PEP Lists (Politically Exposed Persons) and AML (Anti Money Laundering) relevant adverse media. The screening tool matches based on whether the entity searched is a business or individual, aliases, date of birth (with a 12-month tolerance), country and gender. If some of the data needed to match is not available the algorithm assumes a possible match.

Compliance alerts are provided by screening Creditsafe data against several third-parties; therefore, it is impossible to guarantee its accuracy and should not be used as the sole basis for any decision-making.

NOTE: Compliance alerts have no impact on a company's credit score and are made available to simplify the process of conducting your own compliance checks only. Large reports with more than 50 names to screen, will not be generated. This limit will increase in the future.
