HENGTONG GROUP

ENLIGHTENING THE FUTURE

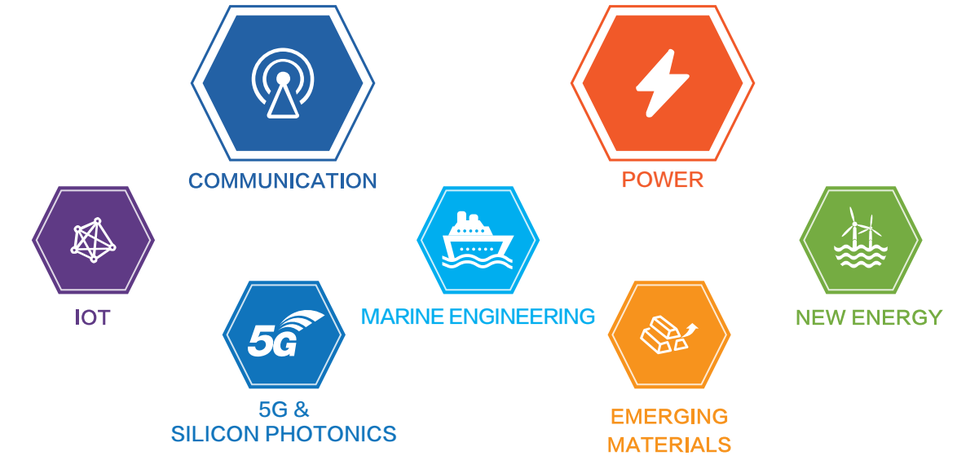

HENGTONG GROUP OVERVIEW

INTRODUCTION

Ranked in Top 3 Enterprises of Fiber-Optic Communications of the world
A complete end to end service provider to communication industry
Global leading energy service provider

Hengtong Group is an international innovative enterprise with a diverse range of expertise covering Optical Fiber, Smart Grid, Big Data-based IoT, New Energy, New Material, etc. With its industry distributed in 13 provinces in China, Hengtong has 70 companies that are wholly-owned or under its holding around the world, among which there are 3 listed companies. It has set up 11 industrial bases in Europe, South America, Africa and Asia, together with sales companies in over 30 countries and regions. With a market share of 25% domestically and 15% globally in the field of fiber-optic network, Hengtong ranks among the Top 500 Enterprises of China, the Top 100 Private Enterprises of China, and the Top 3 Enterprises of Fiber-Optic Communications in the world.

Aiming high at the positioning of a global provider of fiber-optic communications and energy Internet system products and solutions, Hengtong dedicates itself to building full value and industrial chains, further coordinating its development with ecology, achieving self-transformation in an all-round way and striving to build itself into a high-quality, high-tech, first-class and internationalized enterprise.

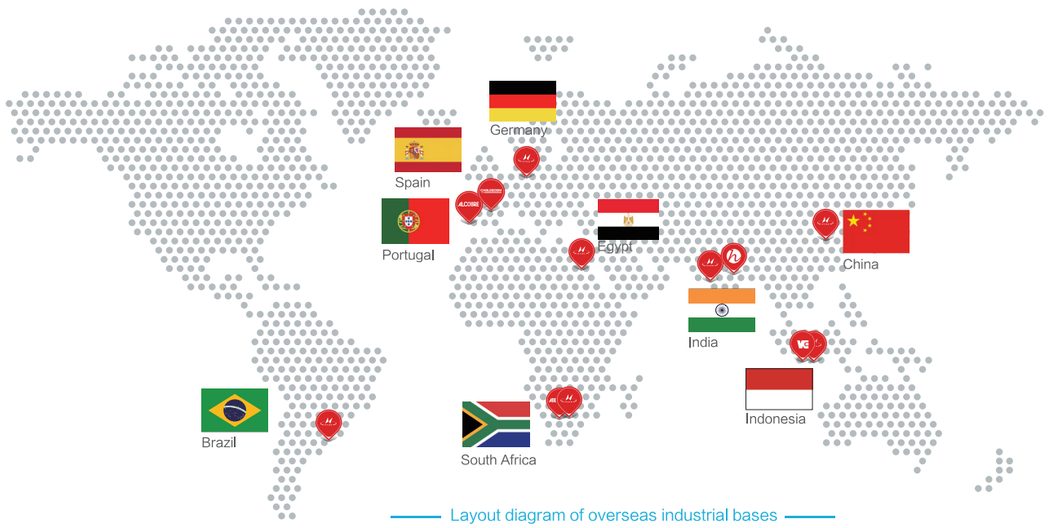

The single largest optical fiber material industry base in the world (Jiangsu, China)

GLOBAL PRESENCE

Building a new industrial layout across the world

Layout diagram of overseas industrial bases

13
Presence in 13 Provinces

11
11 Overseas Factories

30+
Sales & Marketing Branches in over 30 Countries

100+
Products and Services Covering more than 100 Countries

ALCOBRE (Aveiro, Portugal)
Founded in 1910, Acquired in 2016

CABLESCOM (Zaragoza, Spain)
Founded in 1971, Acquired in 2016

ABERDARE (Johannesburg, South Africa)
Founded in 1946, Acquired in 2016

VOKSEL (Jakarta, Indonesia)
Founded in 1971, Acquired in 2016

Acquisition of Aberdare, South Africa

Acquisition of Alcobre, Portugal

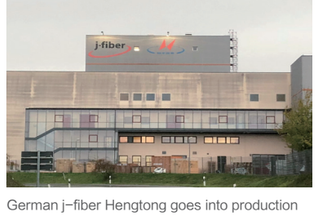

Acquisition of Cablescom, Spain

TECHNOLOGY GLOBALIZATION

Building a global hi-tech innovation highland

13. Construction of China-Pakistan Economic Corridor
14. Saint Petersburg Energy Environment Project in Russia
15. Papua New Guinea Ocean Communication Project
16. Belize Ocean Optical Network Project in Central America
17. Santiago Wind Farm Project in Chile
18. Brazil Cross-Amazon Intelligent Grid Project
19. Nepal 220KV BB-Line Electric Power Transmission Line Turnkey Project
20. Cambodian Hun Sen Park 115KV HV Project
21. Tanzania 33KV Turnkey Project
22. Bolivia 500KV Electric Power Line Project

1. Finland Gulf 35kV Ocean Grid EPC Project
2. Latvia National Broadband EPC Project
3. Turkey Ocean Optical Fiber Network Project
4. Egypt Ocean Optical Network Project
5. Turkey Railway Communication Project
6. Nile Submarine Optical Communication Network Project in Egypt
7. WindFloat Atlantic Export Cable System EPC&M Project
8. Comoros Submarine Optical Network Project
9. Maldives Trans-island Ocean Communication Project
10. Indian Optical Communication Project
11. Malaysia Ocean Communication Project
12. Pakistan PV Power Station Project (the largest monomer globally)

Hengtong submarine cable deep-sea test ship in the Mariana trench

Hengtong seabed rock-socketed pile foundation drilling platform

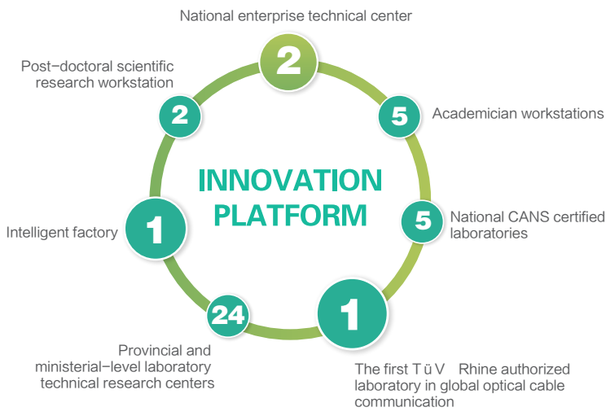

"Hengtong Lande" wind power foundation pile construction ship

"Huadian Wenqiang" self-propelled offshore wind power operation platform

World-class innovation achievements

Power

- The global "largest section and largest span" in OPGW Project in Amazon in Brazil
- Undertakes the global leadingand world first national grid ±1100kV extra-high-voltage DC project from Changji to Guquan
- Research and developed the global first extra-high-voltage, large-span and ultra-low loss OPGW product independently
- The world's first ultra-high voltage 500kV 1*1800mm single longest submarine cable
- "Aluminum alloy energy-saving transmission wire and multi-scene application" won the second prize of "National Science and Technology Progress Award in 2019"

Communication

- Researches and develops the new generation of green optical fiber materials independently, which are selected in the national green intelligent manufacturing project
- Launches 400G large-capacity ultra-low loss optical cable for the first time in China,which is selected in "Industry Strong Base Project"
- Launches "full-wave band, ultra-low loss, ultra-long distance and ultra-large capacity" optical communication system in China for the first time
- The world's first Telecom grade "large effective area optical fiber" land optical cable (g.654e) engineering application
- China's first UUA ultra-low loss, super-large area single-mode fiber
- The world's first phase coded long-distance wide-area commercial quantum trunk line
- The first prize of China Society for Optical Engineering
- First Prize of Jiangsu Science and Technology Advancement Award (The key preparation technology and industrialization of a new generation of organic silicon optical fiber preform)

Ocean

- The first leading company to defense sea test at a depth of 8000 meters through submarine optical communication system in China
- The global pioneered "ultra-large size, ultra-low loss no-relay submarine optical cable"
- The first leading company to enter the world's 500kV ultra-high voltage cable technology in China
- The world first large-length "500kV AC optical fiber composite submarine cable
- To undertake the most complex water ecological monitoring project in qinling mountains of guiding han river and benefiting wei river across the Yellow River and the Yangtze river
- The first offshore windfloat generation technology in the world
- First Prize of the State Machinery Industry Science and Technology Advancement Award (Ultra-high voltage XLPE insulated optical fiber composite submarine cable system)
- The Championship in Manufacturing Industry of the Ministry of Industry and Information Technology (submarine optical cable system)
- First Prize of Jiangsu Science and Technology Award. (Key technologies and complete sets of equipment for high-reliability marine optical fiber cables)

CSR

Building a community of development for global enterprise

Social responsibility is the first responsibility for an enterprise and is at the forefront of Hengtong

Hengtong's charity foundation operates across 7 countries，
with an accumulative donation of More than RMB 700 million

Hengtong Charity Foundation

Ministry of civil affairs "4A social organization"

Start from your side within your local area and help the less fortunate

State Council · National Poverty Alleviation Award

Cui Genliang at the Chinese Charity Award ceremony

- Top 500 Corporate Social Responsibility of China
- Special award for Corporate Social Responsibility of China
- “Individual with most love donation” of Chinese Charity Award
- Outstanding contribution award for the 20th anniversary of Chinese Honored Causes
- Outstanding contribution award of Chinese charity
- National Charity caring enterprise

Advanced private enterprise in National Enterprise help Village Targeted Poverty Alleviation Action

Global ‘Habitat Environment Green Technology (Product) Best Practices’

China’s first batch of five-star energy efficiency enterprise

China Communications Industry Green Energy-saving Technology Innovation Award

Excellent Cases Of Private Corporate Social Responsibility Of China

Treatment of children with congenital heart disease in Yunnan province, China

“Hexuan Anqi Nursing Home Project” in old revolutionary base areas in Jiangxi

Program of caring rural stay-at-home children in Chongqing

Action of rescue children with congenital heart diseases in minority areas in Yunnan

South African Company is evaluated as first-class enterprise of "BEE Act"

AberSchool project

Abercare project

Donation of Fogging Equipment

Blood Donation

Sponsor Orval half marathon

Donation to Orval basketball team

Donation to Orval Museum

Cooperation with local schools

Cooperation with local social organizations

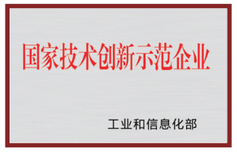

HONORS

Building a 100-year enterprise respected by the industry

- Global performance excellence award
- One of the Top 500 Enterprises of China (ranking 200th)
- One of the Top 500 Private Enterprises of China (ranking 49th)
- Chinese Industry Award
- One of the Top 3 optical fiber communication enterprises globally
- National innovative enterprise
- The second prize of "National science and technology progress award"
- National technical innovation demonstration enterprise
- National Intellectual Property demonstration enterprise
- National High-skilled Talent Training Base
- National enterprise culture demonstration base
- National Model Enterprise with Harmonious Labor Relations
- National model home of employees

Hengtong has accomplished certification for over 30 international standard systems and has won the trust of the global community with world class quality and services.
