1 Introduction 3

2 5 Year Safety Statistics 4

1 Introduction

JDR is rightly proud of both its Safety Culture and Performance. In 2015 we embarked on our TH!NK Safety journey and today some 4 years later we find ourselves embracing an engaged workforce, who have and continue to make a huge contribution to reducing the potential for accidents and injuries to occur in our working environment. This success has not been achieved by our employees alone, as visitors, contractors and clients have made a significant contribution with the submission of TH!NK Safety Observation Cards. The initial drive was against number of cards submitted, we have maintained this and year on year significantly surpassed our annual target. In 2018 and 2019 we have focussed on the quality of submissions and set ourselves a target of +90% closeout of actions from the cards submitted. Today we stand at a 92% closeout of cards across the business portfolio which is a massive investment in Safety. To capture this in short we have made thousands of small but significant positive changes in safety across the patch.

This TH!NK Safety Mindset harnessed by all born greater success, as in 2018 we realised a reduction in 1st Aid treatments, down by 16 against those recorded in 2017 and as we stand we have recorded 4 first aid treatments in 2019, again further improvement. Near misses in 2018 were down by 15 against the 30 recorded in 2017 and Damage Causing Incidents were down by 5 against 20 in 2017. The introduction of Key Risk Condition Campaigns to reiterate and refresh knowledge and understanding, hosting Client Project TH!NK Safety Days, a focus on training complemented by Safety Walk and Talks (SWATs) by the senior management team has further enhanced a safety culture where everyone has a safety voice. 2019 realised a focus on those in a supervisory position, providing them with a suite of tools specific to their role and responsibilities to realise greater understanding, engagement and ultimately continual improvement.

Safety for JDR is a core value and a significant element of our Visions and Values.
