Summary

Key Information

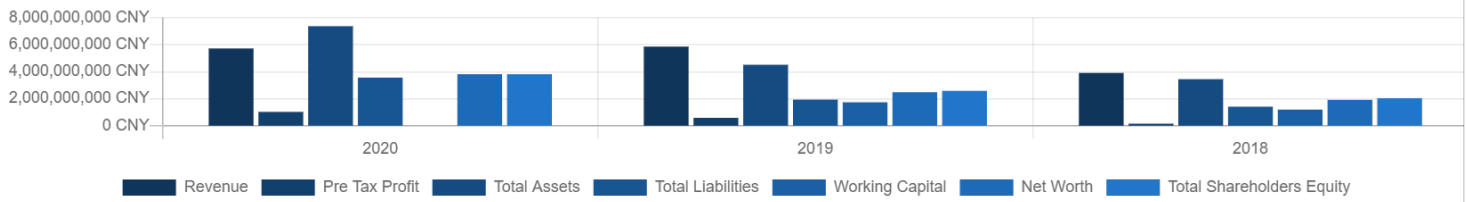

Registered Company Name	Zhongtian Technology Submarine Cable Co., Ltd.
Registration Number	91320691767357160W
Legal Form	Joint Stock Company
Principal Activity	Research and development, design, production and sales of submarine cables and land cables
Turnover	5,715,973,000 CNY

Company Background

Subject's cross-linked cable voltage level is 10kV～500kV, AC submarine cable voltage level is 10kV～500kV, and DC submarine cable voltage level is ±80kV～±525kV. Subject has R&D institutions such as "Jiangsu Submarine Cable Engineering Technology Center", "Nantong Deep-sea Optical Cable High-Tech Research Key Laboratory", "Zhongtian Technology Submarine Cable Research Institute", and "Postdoctoral Research Workstation". Subject's products are widely used in national defense communications, CNOOC, PetroChina, Sinopec, State Grid, China Southern Power Grid, China Telecom, China Mobile, China Unicom, five major power generation groups, new energy and other key projects.

Compliance Alerts

Please note businesses are responsible for conducting their own KYC (Know Your Customer) checks. The Compliance Alerts generated by this report display possible matches for business or individuals. Matches are generated using many data points e.g. name, address, date of birth, possible alias, country etc. We recommend users click on each alert to view details of the potential match and use a screening tool (like Protect) to ensure that screening is conducted in line with your own business risk appetite and internal processes.

Current Directors

	Name	Gender	DOB	Address	Compliance Alerts
-	Xue Jianlin	-	-	-	
-	Xue Chi	-	-	-	No Alerts

Creditsafe Compliance Alerts screens selected business or individuals (directors, Ultimate Beneficial Owners (UBOs) using a minimum of 90% matching score, to generate alerts relating to the following categories of risk: Sanctions/Watchlists, Enforcement Agencies/ PEP Lists (Politically Exposed Persons) and AML (Anti Money Laundering) relevant adverse media. The screening tool matches based on whether the entity searched is a business or individual, aliases, date of birth (with a 12-month tolerance), country and gender. If some of the data needed to match is not available the algorithm assumes a possible match.

Compliance alerts are provided by screening Creditsafe data against several third-parties; therefore, it is impossible to guarantee its accuracy and should not be used as the sole basis for any decision-making.

NOTE: Compliance alerts have no impact on a company's credit score and are made available to simplify the process of conducting your own compliance checks only. Large reports with more than 50 names to screen, will not be generated. This limit will increase in the future.

Activities

Principal Activity

Activity Description	Research and development, design, production and sales of submarine cables and land cables
Business Scope	R&D, design, development, production, sales of wires and cables and their accessories (submarine optical cables, submarine cables, submarine photoelectric composite cables, towing cables, umbilical cables and various composite submarine cables, AC cables, DC cables, overhead insulated cables, control cables, overhead wires, optical fiber composite overhead ground wires (OPGW), joint boxes, metal and plastic cable protectors, terminal equipment, bend limiters, watertight connectors, protective tubes, anchors and other marine engineering devices, communication equipment), optical cables, aluminum alloy rods, copper and aluminum tubes, copper and aluminum bars, electrical equipment and technical services; port cargo handling and storage (excluding containers and dangerous goods); import and ex port of various goods and technologies on self-run and commission basis, with exception of those run by the State's designated firms and those prohibited from being imported and ex ported by the State; license item: port operation (items subject to approval as stipulated in laws can only be operated after being approved by relevant departments; specific busi ness items are subject to the approval results) general items: research and development of offshore wind power related systems (excluding items subject to approval, enterprise can be operated on discretion by law under license).
Industry Description	It refers to the manufacturing of electric wire and cable used in lighting and electricity transmission and distribution, power transmission, information dissemination including those of voice, text, and image.
