Grupo Marítimo Maury

We have a simple goal...

To provide a complete service in the marine operations. Each company alone has an important position in its market. However, when working all together, we give an specialized service by working in a coordinated way in order to meet our customer needs.

We are always looking for new market niches, trading partners with whom we can eliminate the risk and increase profits by offering immediate solutions.

We Know that the skyline in a global market like the one in which we work is very broad.

Nevertheless we have the strenght and exprerience to cope with new challenges and move forward in the search for success. And we want to share it with you.

marinetech
S.A. de C.V.

Our approach

A New Generation of reliance in the marine industry.

We are a mexican chartering company that participates on the oil industry development, offering cargo and personnel shipping services, while maintaining the highest safety standards in both, our vessels and in our shore facilities.

The growth has been with the conviction of not only investing in facilities, equipment and tools for the job, but also in the quality of our service, complying with the specific rules that each client requires.

To Provide a Quality Service, for wich we need to maintain and even improve, the professionalism and speed that today characterizes us.

Our mission is to be the best shipping company of México; reliable, innovative and word-class, with position in the national and international market, ensuring the optimum human performance of each person within the organization.

Evolve to a global provider of marine transportation and logistics services, maintaining operations with the highest quality standars within our industry and be part of a new generation of business realiance to the marine world. Zero complaints and total customer satisfaction with the service provided.
