

HF OFFSHORE

COMPANY PRESENTATION

March 2024

Company profile

HF Offshore was founded in 2023 by Capt. Heiko Felderhoff following his management buy-out from the Harren Group, based on his many years of experience as seafarer, managing director and shareholder with responsibilities covering the entire value chain of shipping and offshore operations.

HF Offshore is the continuation of those activities under own complete direction.

Worldwide Reach

Company profile

HF Offshore started it's first operation in Mexico back in 2008 with the operations of foreign flagged offshore assets and named as Harren & Partner México. In 2014, the company established a local Mexican shipping company with the vision of providing **first class operational service** with Mexican flagged vessels for the offshore oil and gas industry.

Our offices are located as following:

A. Ciudad del Carmen, Campeche – Head Office
B. México City – Commercial Office
C. Tampico, Tamaulipas – Operational Office

The Company currently employs about 70 onshore personnel and approx. 500 seafarers offshore.

Company profile

Ship & Crew Management

HF Offshore Mexico has been in close collaboration with various international ship owners since 2018 and is currently responsible for Mexican Crew and additional services on the following vessels:

Maersk Implementer

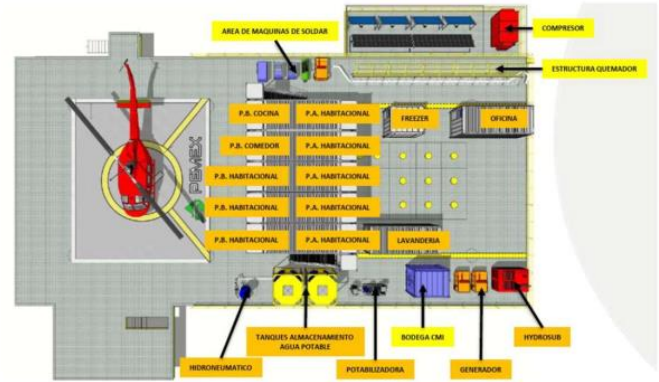

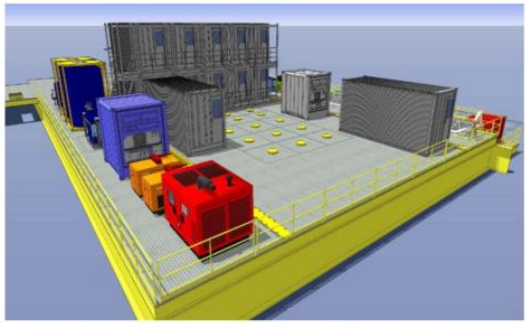

Atlantic Tonjer

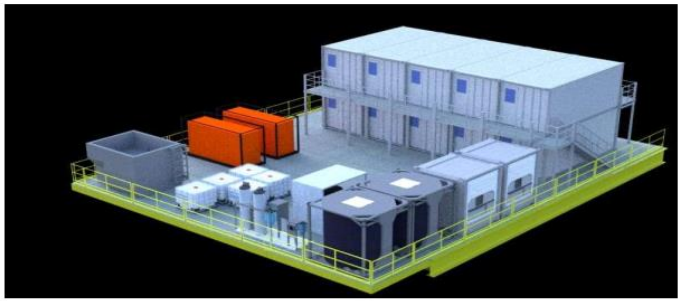

GSP Vega

Integrated Offshore Camps

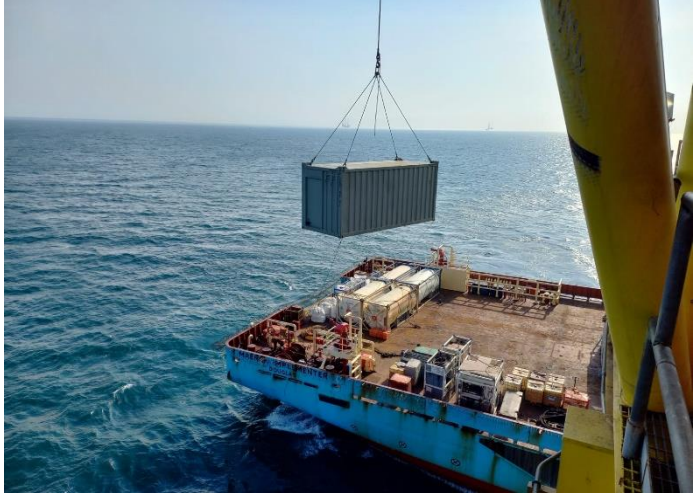

Due to the increasing need for containers offshore onboard the vessels, but also need for “Integrated Offshore Camps” installed on satellite platforms, our camp service in México has been growing.

At the moment, we have around 80 containers on different projects, and we currently operate a large number of complete offshore camps. (CCU, equipment and services).

Accommodation containers are **DNV 2.7.1. Certified.**

Together with **CargoStore**, we supply several types of CCU to the Mexican market, our most popular containers are the 10ft and 20ft dry van and reefer.

Our cargo containers are **DNV 2.7.1. Certified.**

Cargo containers are available for rent or in packages with integrated services.
