NEW TECH GLOBAL - COMPANY PROFILE

Introduction:

NTG is a leading provider of contingent/contract personnel, offering specialized services in the upstream oil and gas, industrial and manufacturing, and other industry sectors. With over 25 years of experience and a merger with Sierra Hamilton, NTG has built a strong network of over 44,000 contractors. We are known for managing critical aspects of our clients' challenging projects and have established ourselves as a trusted partner to multinational oil and gas corporations and independent exploration companies. Operating in major U.S. oil and gas basins and international locations, NTG provides cost-effective, reliable, and customized solutions through three primary lines of business.

Lines of Business:

Consulting, Recruiting, and Staffing:
NTG specializes in providing engineering and on-site supervision for upstream oil and gas production and development. We possess broad contract recruiting and staffing capabilities in the Energy, Manufacturing, Technology, and Healthcare industries. Our expertise and comprehensive services ensure that clients have access to top talent and necessary support for their projects.

Environmental Services:
As a full-service company, NTG offers the energy industry environmental solutions and sustainability consulting. We help clients address environmental challenges and meet regulatory requirements, ensuring compliance and responsible practices in their operations.

Project and Asset Management:
NTG provides customized project and asset management solutions in the upstream oil and gas production and development segment. We offer contract operating services, enabling clients to efficiently manage their projects and assets while optimizing performance and reducing costs.

Mission:

At NTG, our mission is to become an asset and valued partner to our clients and contractors. We aim to go beyond simply filling orders and strive to solve our clients' problems. By understanding their needs and challenges, we provide tailored solutions that contribute to their success.

Values:

Transparent, Proven Processes:
We prioritize accuracy and consistency in the Oil and Gas industry. Our processes have been tried and tested, and we make them transparent and accessible to our operators and consultants. By ensuring everyone is on the same page, we foster teamwork and deliver safe, comprehensive solutions.

Unwavering Dependability and Leadership:
NTG stands by its commitments and promises. We lead with integrity, holding ourselves accountable to the needs of our clients and contractors. Our leadership values loyalty, honesty, and doing what is right, and we prioritize these principles in every aspect of our operations.

Sincere, Personal Support and Service:
At NTG, we provide immediate, accountable support and guidance to our clients. Building trustworthy relationships is central to our interactions, and we pride ourselves on delivering expertise and knowledge. We are devoted to delivering a personal touch and ensuring a positive experience with NTG at every interaction.

Conclusion:

NTG is a reputable company offering comprehensive services in contingent/contract personnel, environmental solutions, and project and asset management. With a vast network of contractors, a history of successful partnerships, and a commitment to transparency, dependability, and personal support, NTG is well-equipped to meet the needs of clients in the upstream oil and gas, industrial, and manufacturing sectors. We strive to be an invaluable resource and trusted partner, consistently delivering customized solutions and solving our clients' most challenging problems.
