Notas:

(1) Although REGISTRO DE COMERCIO (COMMERCIAL REGISTER OFFICE) is the official Issuing Authority for Business Licenses in Chile, public access to statutory records is exceptionally bureaucratic and can take up to several weeks before obtaining just a license number.

Therefore, the accepted practice by local banks and business community requiring official authentication of the legal status of companies is to obtain the corresponding Tax Number issued by the SERVICIO DE IMPUESTOS INTERNOS (SII).
Hence the official Tax Number for this business entity is provided below.

(2) The abbreviation appearing at the end of the SBE's name above is an abbreviation of the Legal Form "SOCIEDAD POR ACCIONES" which is automatically generated by GlobalCIS® software.

Due to the lack of SBE's operational status, and circumstances involved, the information as listed below is only historical / on-file data and as such it has not been possible to verify against any current sources.

Análisis de Riesgo : N/R (Not Rated)

Puntaje : 0

Análisis de Riesgo

The GlobalCIS® Credit Rating ("GCR") is a score based on statistical analysis of both financial and a wide range of non-financial data. The GCR algorithm predicts the probability of the Subject Business Entity (SBE) becoming insolvent in the 12 months following the date on which the algorithms generate the corresponding GCR score.
An integral part of the GCR and Risk Assessment provides an estimated credit amount that can generally be considered for a specific period, based on the facts available at the time of review.

Factores Determinantes

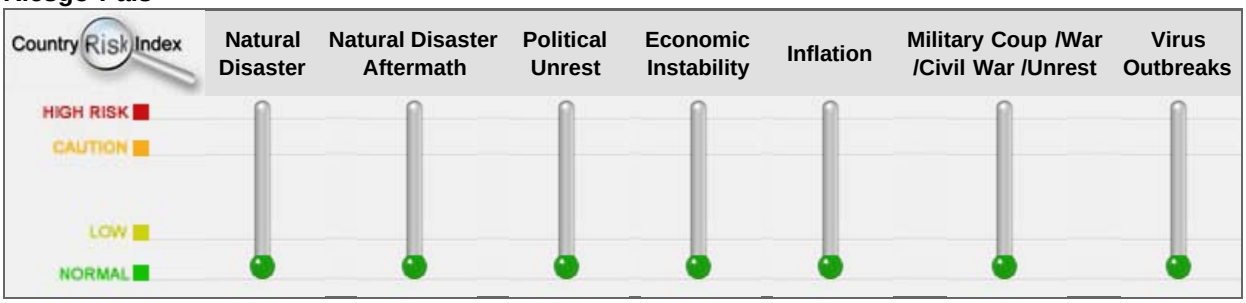

GlobalCIS® Credit risk assessment is gauged on 12 key business factors.
Each factor is assigned a rating and the total is aggregated and weighed in consideration of any other influencing factors relevant to the final assessment.

These factors include but are not limited to:
