Important Note: DBT are the average days beyond terms weighted by the age and amount of invoices. The calculation uses all trade lines received from suppliers of the Trade Payment Programme. Creditsafe points at the fact, that this is not a statistic based on representative and complete data. Available trade lines might contain occasional instances which are not representative. It is possible that companies with a high DBT pay within terms on other occasions.

Credit Limit

Today's Limit

-

Previous Limit

305K

Definition

The Creditsafe recommended credit limit is calculated using a formula that analyses information from a company's financial accounts and payment record. The Registered company credit limit is our recommendation of the total amount of credit that should be outstanding at any one time.

Contract Limit

Today's Limit

€500

Definition

A Contract Limit is the suggested value of a contract that a company can handle. It is an assessment of the subject company and its suitability to carry out a specific contract. It is mainly based on value of the sales that a company can generate.

For certain transactions and industries, the Money Laundering Act (GwG) requires verification of whether the trading partner has a beneficial owner. This determination of the beneficial owner is intended to prevent straw man transactions and to identify the natural person in whom the beneficial interest exists. In the case of legal entities or companies, a beneficial owner is any person who holds more than 25% of the voting rights, more than 25% of the capital share or more than 25% of the assets. Violations of the AMLA can be punished with a fine of up to 100,000 euros per violation.

In the case of partnerships (such as a KG or GmbH & Co. KG), the general partners with power of representation are beneficial owners, provided they are natural persons and hold more than 25% of the voting rights. If the general partner is a legal entity, a further examination of the beneficial owners must be carried out via this company.

Compliance Alerts

Please note businesses are responsible for conducting their own KYC (Know Your Customer) checks. The Compliance Alerts generated by this report display **possible** matches for business or individuals. Matches are generated using many data points e.g. name, address, date of birth, possible alias, country etc. We recommend users click on each alert to view details of the potential match and use a screening tool (like KYC Protect) to ensure that screening is conducted in line with your own business risk appetite and internal processes.

Compliance Alerts, Compliance Risk, Indicators, KYC reports (together '**Compliance Data**') are created with Creditsafe data enriched by data provided by several third-party suppliers which would not be possible for Creditsafe to guarantee accuracy.

Creditsafe Compliance Alerts screens selected business or individuals (directors, Ultimate Beneficial Owners (UBOs) using a minimum of 90% matching score, to generate alerts relating to the following categories of risk: Sanctions/Watchlists and Enforcement Agencies. The screening tool matches based on whether the entity searched is a business or individual, aliases, date of birth (with a 12-month tolerance), country and gender. If some of the data needed to match is not available the algorithm assumes a possible match. EXAMPLE: A search for “Mohamed Ali” with no residential country but with a date of birth and a Director of a UK company gives a 100% match. Mohamed Ali is a very common name and often regulators do not store date of births of persons on watch lists. The address of his work is also not taken into account as it is not a confirmed legal personal residence. A 100% match does not mean the Director in question is a match. We must look at the details of each potential record reported.

The compliance data is not intended to be used as the sole basis for any decision making and is based upon Creditsafe data that has been enriched with data provided by third parties, the accuracy of which it would not be possible for Creditsafe to guarantee. The Service is provided without warranties of any kind, whether express or implied and no representations are given in relation to the information provided. Creditsafe seeks to exclude any liabilities that may arise out of the use or misuse of the information.

NOTE: Compliance alerts have no impact on a company's credit score and are made available to simplify the process of conducting your own compliance checks only. Large reports with more than 50 names to screen, will not be generated. This limit will increase in the future.

This report may only be used within the company and only for the purposes for which it was retrieved. It may not be passed on to third parties or used for other purposes unless this is expressly permitted hereafter. This applies equally to parts of the report and to electronically stored or printed information. Reports from your own company may be passed on to third parties for their own purposes, for example when participating in a tender or in connection with credit applications. Reports on third parties and information derived therefrom may be passed on to third parties if and to the extent that there is a legal obligation to disclose such information. In the context of requests for information under data protection law, for example, only such personal data that is covered by the right to information may be disclosed.
