Executive Summary

Según políticas de calificación de DIRECTV ARGENTINA SOCIEDAD ANONIMA

WyPlay es una empresa francesa de capital privado, que desarrolla soluciones para operadores de televisión y contenidos vía cable y satélite. Fue fundada en 2006 y declara contar con 94 empleados y 7 subcontratistas. Sus accionistas son: SOFINNOVA (Francia, 44%), accionistas fundadores (Francia, 22%), TROCADERO 2015LP (UK, 20%) y ELAIA (Francia, 14%). Opera normalmente con bancos locales y no presenta eventos de integridad pero tiene diversos juicios en su contra, incluyendo numerosos reclamos por deudas previsionales/laborales. La compañía ha pasado por 4 rondas de capital y recaudó $ 29.7 millones de euros, entre 2005 y 2015 (se identificaron notas de prensa donde se menciona otra ronda de capital por EUR 4.7 millones), además, es financiado por 6 inversores, según fuentes externas. De acuerdo a nuestro análisis hecho al ejercicio anterior en el que se observaban grandes dificultades a nivel comercial y financiero, vemos que en el actual periodo analizado estas se han profundizado. La empresa compartió información contable a diciembre de 2018, la cual indica una disminución interanual de Ventas de 23%, (€12 Millones en 12/2018 contra €16 Millones en 12/2017), además el costo directo aumentó el 40% por lo cual presentó un resultado altamente deficitario a nivel operativo (- $9.6 Millones) y final (- €4.8 Millones), lo que equivale al -38% s/ventas. Financieramente, la liquidez, que ya era mala, disminuyó a 0.42 y el monto del capital de trabajo ascendió en saldo negativo a €9.5 Millones. El PN reflejó un valor negativo de €4.2 Millones. Consideramos que una empresa que exhibe un perfil de tan alto riesgo, con una publicación oficial donde se indica un derecho de preferencia para la autoridad previsional francesa, no puede demorar la entrega de sus Estados Contables 2019, junto con información post-cierre de Compras y Ventas para 2020. Recomendamos considerar las inversiones a largo plazo y proyectos estratégicos vinculados a dicho proveedor, puesto que su volatilidad representa un riesgo contingente directo para DirecTV.

SOLUTIONS

"CONTROLLING YOUR ANDROID TV EXPERIENCE WITH THE WYPLAY OPERATOR LEVEL APP. The Android TV operator level makes perfect sense to many operators, as it provides the best experience, improves time to market, and provides easy access to more than 2,000 applications. Despite its numerous advantages, Android TV comes with its challenges. This is where Wyplay comes in. Wyplay's Android TV Operator Tier app combined with our industry leading system integration

services with your Android TV solution in any environment (OTT, DVB / IP Hybrid). Our Premium Reference UI / UX can be customized for your brand and can be used to improve merchandising speed. Alternatively, we can incorporate your own UI / UX design into our operator level application.

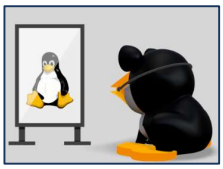

Also, Wyplay Android Operator Tier app can be deployed using our cross-device UI framework, which means your UI / UX can be deployed on main video devices, for example smartphones / tablets / PC / Mac".

UX

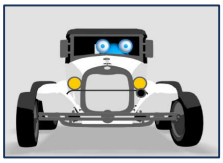

"Our premium UI / UX gives you the best TV, VOD, update, recommendation and multi-user profiles.
Our premium UI / UX can be customized to ensure your app is compatible with your brand and app requirements.
The UI / UX reference is ready to be implemented on all major devices and can be used in conjunction with our crossover device. Wyplay's Cross Device Framework allows you to design and develop your user experience and deploy it across multiple devices. IPhones, iPads, Android phones and tablets, PC / Mac, as well as Linux and Android decoders".

LINUX STB

Our middleware solution has been integrated with all major decoders, soCs, and security providers, giving you complete freedom of choice when choosing who you want to work with. By operating in streaming mode only or in hybrid mode, open source middleware can adapt to any solution in any market.

LEGACY MANAGEMENT

"Our experience and professional services cover IPTV, OTT, Hybrid STB in various chipsets / STB and CAS provider.
The Legacy Backend can be supplemented with the Wyplay Backend components.
Performance improvement and end-to-end system integration are proposed as key values to optimize your costs".

OTT PLATFORM

"Features available on the Wyplay service platform include CMS (TV / VOD and Update), content recommendations, n-PVR, analytics (including quality of experience and audience measurement data), targeted advertising and ads, management of Multi-user profiles, UI A / B Testing, Voice Assistant cloud platform"

MISSION, VISION AND VALUES

"For some years now, the TV market has been experiencing a major revolution with the convergence of Internet and Television, clearly redefining the value chain and jeopardizing the leading position of traditional players.
This revolution is powered by four major shifts:

- new content (User Generated Content, Applications, Catch-up...).

- new connected devices (Dongles, Retail OTT boxes, Connected TVs, Tablets, Laptop, Game Consoles...),
- new ways of delivering video (OTT: Over The Top video streaming),
- and new uses (Multiscreen: TV + phone/tablet, Multi-user per subs).

These changes are lowering the barrier of entry to the video market for new comers. This allows Tier2-3 Pay-TV providers, Telcos, Media Companies to offer video services directly to the end-users.
Importantly, while end-users are increasingly demanding such advanced features, it remains equally important that the user experience stays as seamless as possible across devices.

By contrast, Internet giants such as Google, Amazon, Apple have entered the market with technologically advanced solutions and exclusive content but find themselves confronted with fierce opposition from operators who fear losing control of their platform triggering all the negative consequences: loss of advertising, loss of exclusive content deals, and eventual loss of subscriber base.
This results in a strong demand from all operators for innovative and independent solutions, and operators are addressing this challenge in one of two ways:
1) Investing in an advanced user experience to compete with the internet giants in which the operator needs flexibility, control and an ability to innovate at the same pace as the internet giants.
2) Embracing the technology from the internet giants. Some operators are now prepared to launch an Android TV or Apple TV device to offer customer additional content e.g. Netflix. A number of operators are keeping their options opened and progressing with both of the approaches above. Wyplay is uniquely placed to create and deploy such solutions.

Regardless of the operator approach or the selected technology Wyplay can support the customers strategy by providing end to end software and system integration services and pay TV technology consultancy services to integrate Wyplay or third-party technology into the complex technical environment of a Pay TV provider.”.

Wyplay creates Wyplay Americas

MARSEILLE, FRANCE — MARCH 10, 2020 — After a series of successful TV operators deployments in the Americas - all managed from France - Wyplay created Wyplay Americas to improve support for local TV operators and to develop new business opportunities. Wyplay started to work in December 2016 with Telefonica South America followed by DirecTV and Sky Brasil in February 2017. 4 years and 7 products deployed later, Wyplay establishes a permanent presence across the Atlantic by assigning two men who will drive the development of the local team: Diego MARTINEZ and Massinissa AIT GHERBI.

Diego MARTINEZ is an experienced business executive with over 25 years of experience in the Americas region and an established track record at companies in the digital TV, telecom and technology industries.

He has held C level and senior leadership positions at Nasdaq traded companies in the US and multinational firms including AT&T, Lucent Technologies, Logicalis/Cisco, UTStarcom and most recently, Inview Technology. He has also consulted extensively with start-ups and SMEs on strategy, business development, Marketing and Sales, Operations, P&L management and Mergers & Acquisitions.

Diego is an Electronic Engineer and currently works as VP Sales Americas for Wyplay.

Massinissa AIT GHERBI is an experienced pay-TV architect with over 10 years of experience in the international TV operator market.

He is well travelled, spending 4 years in Brazil working for CommScope as Team Leader and spending 1 year in Netherlands where he held position of an architect consultant for Liberty Global. He is an expert problem-solver with a demonstrated history of working in all the leading TV stack solutions such as Frog, Android TV and RDK.

Massinissa operates as a Senior System Architect and is now working on the next Android TV STB for DirecTV.

“The Wyplay Americas team's objective is to develop sales and ensure continuous customer support in North and South America” said Dominique Feral, CSMO & Co-Founder of Wyplay.

He added: “We are convinced that our TV expertise in RDK, Android TV or Frog, and our capability to manage legacy deployments could help local TV operators in defining their future.”

PROPUESTA DE VALOR DE WYPLAY

- “Hemos construido una asociación a largo plazo con Canal +, ya que estamos trabajando juntos en la tercera generación de productos.
- Canal + optimizó el ROI de los decodificadores legacy gracias a nuestra experiencia en migración heredada.
- Permitimos que Canal + aumente su velocidad de innovación, gracias a nuestro middleware basado en navegador y al proceso ágil. Dentro de este entorno, Canal + desarrolla la interfaz de usuario y los puertos de aplicaciones de terceros para nuestro navegador.
- Nuestra solución permite a Canal + aprovechar la entrega de video OTT para ofrecer más canales de TV a los suscriptores, tener un decodificador híbrido de TDT y reducir su dependencia de los decodificadores IPTV de Telco”.

PROPUESTA DE VALOR DE WYPLAY

- “Reemplazamos completamente el MW heredado de DirecTV con la solución evolutiva de Frog, probada para el futuro, en múltiples territorios en América Latina.
- Ofrecemos servicios profesionales de integración de sistemas y desarrollos personalizados para integrar el ecosistema de DirecTV muy específico.
- Hemos habilitado 4K DVR a tiempo para la Copa Mundial de Fútbol 2018”.

PROPUESTA DE VALOR DE WYPLAY

- “Permitimos que DishTV aumente su velocidad de innovación gracias a nuestro middleware basado en navegador y nuestra interfaz de usuario HTML5.
- El Frog Turnkey permite un lanzamiento rápido en el mercado.
- DishTV ha otorgado a Wyplay y algunos otros socios nuevos para el programa Liberty, con el objetivo de reducir su dependencia de los proveedores de CAS.
- Los nuevos set-top boxes tendrán 2 CAS (uno activo y otro para dormir) que pueden intercambiarse por el aire.
- DishTV utilizará nuestro backend para administrar y elevar estas aplicaciones y banners publicitarios para configurar el boxeo por aire”.

PROPUESTA DE VALOR DE WYPLAY

- “Permitimos que Canal + Group desarrolle un producto y lo replique; aquí NC + en Polonia.
- Gracias a nuestro middleware de navegador basado en Blink, NC + se beneficia de una flexibilidad total para desarrollar su propia interfaz de usuario y aplicaciones HTML5”.

PROPUESTA DE VALOR DE WYPLAY

- “Hemos desarrollado una asociación a largo plazo con Proximus mientras trabajamos juntos en la cuarta generación de productos.
- Gracias a la estabilidad y el rendimiento de nuestra solución, Proximus disminuye considerablemente los costos operativos y la pérdida de personal.
- Permitimos que Proximus coloque su pieza maestra en el consumo digital doméstico con servicios OTT, como NETFLIX, junto a su propia experiencia de usuario. Ellos ganan la batalla por HDMI-1.
- Proximus expande la vida útil y optimiza el retorno de la inversión de los decodificadores heredados gracias a nuestra experiencia en migración heredada”.
- Hemos integrado el sistema de recomendaciones y DVR en la nube, lo que convierte a Proximus en el pionero en ese campo.

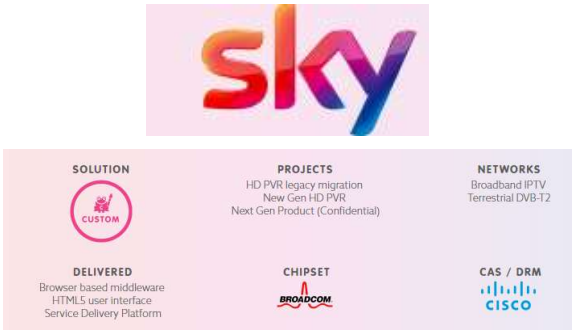

PROPUESTA DE VALOR DE WYPLAY

- “Ofrecimos la flexibilidad para desarrollar, a través de compañías externas, la interfaz de usuario y las aplicaciones.
- Nos asociamos con Technicolor como integrador de sistemas”.

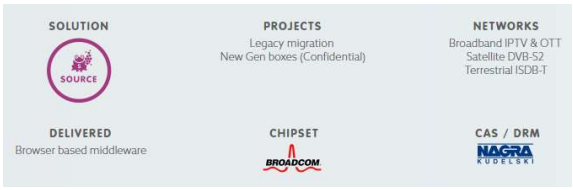

PROPUESTA DE VALOR DE WYPLAY

- "Entregamos una solución completa de middleware y UI a SFR con el código fuente. SFR adoptó esta solución para hacer sus propios derivados y evoluciones.
- Wyplay permitió a SFR reposicionarse como líder en un mercado competitivo con un producto innovador con una interfaz de usuario similar a 3D, juegos en la nube, redes domésticas"

PROPUESTA DE VALOR DE WYPLAY

- "Permitimos a Sky replicar su oferta de TV paga por satélite a través de la red de banda ancha de Telecom Italia y alcanzar nuevos clientes potenciales, especialmente en ciudades de alta densidad.
- Ofrecemos una solución completa que incluye backend y middleware cliente con una interfaz de usuario HTML5 en menos de 10 meses.
- Estamos orgullosos de proporcionar la primera integración y el despliegue del códec V-Nova Perseus® en el decodificador".

PROPUESTA DE VALOR DE WYPLAY

- "Telefónica se ha unido a la comunidad Frog by Wyplay. Allí, tienen acceso al código fuente de su software y lo utilizan como base para desarrollar su nuevo middleware abierto.
- Apoyamos a Telefónica realizando algunas tareas específicas de expertos, como la adaptación de hardware, mejoras de navegador, etc.
- Wyplay permite a Telefónica unificar la experiencia del usuario y armoniza la solución técnica en sus subsidiarias regionales (Vivo, Movistar, etc.) con numerosas plataformas de hardware".

SITUACIÓN ECONÓMICA FINANCIERA Y PATRIMONIAL

Para el análisis de la situación económica financiera y patrimonial del cliente se utilizaron los Estados Contables correspondientes a los ejercicios cerrados en Diciembre del 2016 2017 y 2018.

Indicadores Económicos:

- En el ejercicio cerrado en Diciembre del 2018 la facturación fue de €12 Millones exhibiendo una caida interanual del 23%,(€16 Millones en 12/2017).
- En tanto el costo directo aumentó el 40% su incidencia sobre las ventas en relación al ejercicio anterior.
- En función de lo expuesto el resultado bruto obtuvo una pérdida de €9.6 Millones versus una pérdida de €5.7 Millones en el ejercicio anterior.
- El mismo caso fue el resultado operativo, el cual no permitió cubrir los gastos financieros del ejercicio siendo este un total de €4.8 Millones.
- Se registraron ingresos diversos por €12 Millones.
- El cargo por impuesto a las ganancias (€3.2 Millones 25% s/ventas). La compañía exhibió un quebranto final de €4.8 Millones, monto equivalente al -38% s/ventas.

A Diciembre del 2018 la compañía exhibió una gestión económica altamente deficitaria a nivel operativo y final que se debió al impacto por caída de ventas.

Indicadores Financieros:

- Los indicadores financieros exhibieron inadecuados valores. La liquidez disminuyó a 0.42, el monto del capital de trabajo ascendió en saldo negativo a €9.5 Millones.
- Por su parte si bien el Ebitda evidenció un valor de €3.1 Millones, que con este resultado no permitió cubrir las obligaciones exigibles en el corto plazo (€16 Millones).

En resumen, a diciembre del 2018 la compañía presentó una mala situación financiera en términos de liquidez, el capital de trabajo con alto aumento negativo y por último la generación de fondos.

Indicadores Patrimoniales:

- Luego de absorber el quebranto del ejercicio, el patrimonio neto reflejó un valor negativo de €4.2 Millones. Los resultados no asignados también fueron negativos (-€4.5 Millones) que absorben la totalidad del capital social, evidenciándose una conformación de capital inadecuada.
- El pasivo total alcanzó los €16 Millones siendo el 98% del mismo exigible en el corto plazo. El 56% del mismo es de índole financiero.
- Producto de lo comentado el nivel de endeudamiento exhibió un valor negativo de 3.81 igual fue la solvencia con saldo negativo de 0.26.

En resumen, el cuadro patrimonial del año 2018 se considera muy deteriorado debido al elevado nivel de endeudamiento y el nivel de solvencia.
