ABSTRACT

I'm a software developer with over 7 years of experience using different development technologies, CMS, frameworks and LMS. Always thinking and working on giving the best solution to any challenge, because I consider every job like a challenge to do.
Graduated from IPVCE (Vocational Pre-University Institute of Exact Sciences) in 2006 and Engineer in Computer Science in 2012 and every day learning something new.

Development experience with frameworks like Symphony 2 and CodeIngniter in PHP, jQuery and AngularJS in JavaScript, Bootstrap as a frontend framework. Development with CMS like Drupal and WordPress and educational platforms like Moodle. Proficiency in OOP (Object Oriented Programming) paradigm and languages Java and C#. Lover of work with databases. My main goal is to grow as a professional.
I am working since November, 2016 to present at Onetree as a full-stack web developer as part of projects of international interest.

ADDITIONAL TRAINING AND INTERESTS

Events participation: During his time as a college student participated in scientist events such as the Student Scientific Conference as speaker of scientific works and Artificial Intelligence competitions. As an engineer I participated in Science and Technology Forum, VIII Technology Supporters of students and young professionals, FORDES and XV International Convention and Fair Informatics'2013.

Postgraduate diplomas: General improvement of training professionals.

Postgraduate courses: Professional Training in the Cuban University, Science, Technology and Society, English Language Communication Skills for Professionals, Productive Development Activity, Educational Technology.

Publications: Module for the realization of reusable web presentations on Moodle, 11th Technology Week of FORDES and Electronic Magazine of Educational Technology with ISSN: 1135-9250. The C2Site block for Moodle learning platform V2.2.X, 12th Technology Week of FORDES. Incorporation of B level of the IMS-LD specification in CRODA 2.0, 12th Technology Week of FORDES and VIII Technology Supporters of students and young professionals. IT solution for career's plan setting, VIII Technology Supporters of students and young professionals. Module for realization of reusable web presentations on Moodle, Scientific series University of Informatics Sciences (Vol. 5 No. 1, 2012). C2Site block development for e-learning platform Moodle V2.2.X, XV International Convention and Fair, Informatics'2013 with SBN: 978-959-7213-02-4 and VIII Technology Supporters of students and young professionals.

Other interesting data: As a student I was member of the Movement of helpers Students of UCI in subjects like Operations Research and Discrete Mathematics for two years. I participated in an Artificial Intelligence competition, developed for the best students of the subject in college.
