Maria Cecilia Canteros

WEB DEVELOPER - FRONTEND

Personal Profile

After realizing that I was at the peak of my professional career and could not move on, I decided it was time for a change. I took a sabbatical and studied things of my interest.
At the end of last year I found the wonderful world of programming.
I have been studying at ADA ITW since November 2018 and I would graduate in July 2019.
Since then I have learned from scratch how to create a website, compile with Sass, programming with Javascript and lots more!
