- **Basic** video editing

Language Skills

- **English**, advanced
- **Spanish**, native speaker

About me

I've always been interested in technology. I like to keep up-to-date with the latest information on hardware and software that interests me.
I do proper research, build my own PCs and solve any problems which may appear while doing so, that's why I'm always learning new things and improving my methods.
Being the most tech-savvy among my relatives I had to learn how to explain things correctly, be patient and try to make them understand basic functionalities of their devices especially when dealing with elders.
English is my second language I've been perfecting it for years mainly thanks to the translation course.

WORKING EXPERIENCE

- Full Spanish translation of the article "Exploring the Phenomenon of Zero Waste and Future Cities". 2019.
- Various house building, repairing and maintenance activities including painting, drywall installation and fixing, minor electric installations, etc. 2016 - present.
- Participated in the design, production and sale of a real-life product for a final school project. 2015.
