PROFFESSIONAL RESUME

Name: Ciappesoni, Santiago **Role**: Engineer

1 SUMMARY

Started in 1994 at the computers systems world, have 21 year of experience in various program languages, mainly java, cobol and powerbuilder. Has used OOP (Object Oriented) and SSADM (Structure System Analysis and Design Metodology) with waterfall and prototyping patterns. Worked on the areas of systems related with food, glass industries, health, grain marketing, banks, public network water distribution, software infrastructure, sanitary control of animals for government, automotive industry, logistic, publication of television content and events for mass audiences.
In the last work has acquired more responsibilities as technical referent.

2 DOMAIN EXPERIENCE

Working in Endava Rosario as a backend developer with front-end tasks for mtv (viacom) project supporting groovy grails sercvices fro data comsues, and javascript floating animations implementations embedded into the site. Also into Navihealth client implementing required stories related to complete java 8, API REST services, backend hospitals networks mirgation processes, SQL scripting. Front-end angular js, implementing complete functions for specific modules: admin, discharge, intake, printerq.

3 CORE TECHNICAL SKILLS

Programming languages , technologies and framewroks:

- Java J2EE
- Groovy
- PL/SQL
- JSP
- JSTL
- HTML
- JavaScript
- XML
- DTD
- COBOL
- PowerBuilder

- Assembler
- Ruby Scripting
- Perl
- awk
- bash
- C++
- Informix 4gl
- VB
- SmallTalk
- Freemaker
- Spring
- EJB
- ZK
- Tika
- Hibernate
- Lucene
- Qt

Versioning systems:	• GIT, Atlassian Bitbucket/Stash, SVN
IDEs:	• Eclipse, NetBeans, IntelliJ IDEA
Operating System:	• Solaris, Linux, Windows
Defects tracking tools:	• JIRA
Techniques & Methods:	• **Software Development Methodologies**: Agile (Scrum)
Documentation tools:	• Atlassian Confluence
Web Containers	• Tomcat, Jboss, GlashFish, Weblogic, OAS, Grails, Jetty
CMS	• Adobe CQ
DB engines	• Oracle, PostGre, Microsoft SQL
No SQL DB	• Mongo DB, Jack Rabbit, Redis

4 EDUCATION AND TRAINING

Qualifications:

Universidad Tecnológica Nacional, Rosario, Argentina
System Engineering. 01/01/1993 – 01/01/2000

Instituto secundario Dante Alighieri, Rosario, Argentina
Commercial and account expert. 01/01/1988 – 01/01/1992

Languages:

Spanish: Native
English: Intermediate
Italian: (advanced)

5 RECENT PROJECTS

SR. DEVELOPER AT LULULEMON PROJECT (OCTOBER 20019 – FEBRUARY 2020)

The client is a US is a retailer for an athletic apparel.

Team tasks: Implement custom email templates and behavior requested by client.

Tasks:

- Develop and maintain email templates function and interaction.
- Implement templates and logic into the ATG oracle framework as legacy core code.
- Working at the post-purchase shopping phase into he system interactions, logic and flow.
- Using Agile methodology (Scrum).

SR. DEVELOPER AT NAVIHEALTH PROJECT (OCTOBER 20017 – OCTOBER 2019)

The client is a US health related to cardinal group. It is a patient logistic for hostpitals and health providers across US country. NaviHealth is the care transitions company with the clinical expertise, technology, post-acute provider network, patient database and post-acute care management experience to optimize clinical and financial outcomes across the care continuum.

Team tasks: Implement custom modules and behavior requested by client.

Tasks:

- Develop and maintain system function and interaction.
- Migrate the app to use microservices from monolitic code block.
- Continuously provide new improvement to product.
- Working with Agile methodology (Scrum)

Technical Skills and Tools: Java 8, Oracle SQL, Mongo DB, Angular JS, Javascript, GIT, IntelliJ IDEA, bash, Tomcat

SR. DEVELOPER AT MTV PROJECT (MAY 2013 – OCTOBER 2017)

The client is a global leading multinational mass media conglomerate with interests primarily in film and television. It is currently the world's ninth largest broadcasting, cable, and media company in terms of revenue, headquartered in New York City.

The project is a platform that provides users, mainly teenagers, with rich-media content such as videos, images, games, news and a voting solution both on the site and social media, allowing users to follow up about and vote for their favorite stars in order to win a specific award.

Team tasks: International sites development and support. Open Stack and AWS infraestructure maintenance tasks.

Tasks:

- Develop and maintain rich-media, localized and fully tailor-made responsive (mobile-first) sites.
- Provide support to product and design teams in order to settle proper backend logic responding to UI/UX definitions and requirements and also guarantee perfomance and quality.
- Working with Agile methodology (Scrum)

Technical Skills and Tools: Groovy, Grails, ivy, AOP, JSP, JSTL, HTML5, LESS, Vanilla Javascript, jQuery, SVG, GIT, IntelliJ IDEA.

6 OLDER PROJECTS

SR DEVELOPER IN GLOBANT, ROSARIO, ARGENTINA
22/02/2011 – 27/05/2013

Projects Involved:

- Intel ILSA project, this project was done over Jive CMS using Freemaker.
- Intel Reimagine Shop project, made in Adobe CQ, using Osgi bundles, jackrabbit, felix, jsp, sling and java.
- Intel Mobile Site, made in Adobe CQ, using Osgi bundles, jackrabbit, felix, jsp. sling and java.
- Intel will i am project, made in Adobe CQ, using Osgi bundles, jackrabbit, felix, jsp, sling and java.
- Intel Reimagine shop service under Intel shop Maintenance, infraestructure migration to Verizon hosts, using linux, webloic, apache, java, tomcat, and MSSQLServer database.
- Intel AppUp project using spring, SOAP, restlet, deployed over tomcat, IIS, jboss.
- T-mobile project completely made from zero in Adobe CQ using Osgi bundles, jackrabbit, felix, sling, jsp and java.
- Bogart project made in in Adobe CQ using Osgi bundles, jackrabbit, felix, sling, jsp and java.
- Realted to jsp used with, jstl in some cases, html5 and jquery.
- Consulting and support applications related implementations.

SR. SOFTWARE ENGINEER. NEORIS ARGENTINA, ROSARIO, ARGENTINA 03/03/2010 – 22/02/2011

- Has developed and maintain J2EE MVC applications using EJB with custom framework.
- Database oracle administration using PL/SQL.
- Has developed Unix scripting bash, awk, ruby, perl, ksh, ldap, ocl. PL/SQL procedures, triggers and functions.
- Has develop web applications with java, xml, jsp, struts over apache, sun application server, oracle application server, weblogic, jonas.
- Operative environments, solaris, linux, windows.
- Consulting , support and developed applications related with logistic of Ryder, systems and clients.

SR. DEVELOPER AND INFRASTRUCTURE ARCHITECT. EDS (HP), ROSARIO, ARGENTINA 01/01/2006 – 03/03/2010

- Has developed and maintain J2EE MVC applications.
- Database oracle administration using PL/SQ.
- Has developed Unix scripting bash, awk, perl, ksh, ldap, PL/SQL procedures, triggers. functions.
- Has develop web applications with Java, xml, jsp, struts, apache over sun application server, oracle application server, weblogic, jonas, ejb, sun jcaps integration tools.
- Operative environments, solaris, linux, windows.
- Consulting and support for varied in the universe related to the automotive applications for GM, mainly with systems involved directly into the production lines.

SR. DEVELOPER AND INFRASTRUCTURE ARCHITECT. SPCOM , ROSARIO, ARGENTINA 10/01/2005 – 01/01/2006

- Has developed J2EE application logical layered for the sanitary animal control application.
- The application was developed in java with Struts framework, jsp and for model in the distributed context with EJB.
- Has managed and mounted all infrastructure to support Oracle Application Server and maintained the database data, procedures, functions and triggers.

SR. DEVELOPER AND CONSULTING. KIT INGENIERÍA, ROSARIO, ARGENTINA 20/11/2003 – 10/01/2006

- Maintenance and develop RM, Microfocus and Acu COBOL applications using diferents repositories, Oracle, native cobol files format, MS SQL server.
- Has developed new applications related with administration into Forms and Report oracle tools.
- Java specific interfaces for cobol and oracle interactions.

- Special support to Linux and Solaris clients regarding scripting in bash, ksh, awk, Perl, racoon vpn, CUPS, samba, ldap and communication infrastructure. Customizing linux kernel for specific and special engineering purposes.
- Data migration using DTS and special Java function over oracle for Cobol and Oracle Form tool for integration and concurrency.

INFORMIX SR. DEVELOPER. AGUAS PROVINCIALES DE SANTA FE, ROSARIO, ARGENTINA 07/01/2003 – 20/11/2003

- Has developed INFORMIX modules for migration information to all users in the province related to potable water service under UNIX HP platform.

POWERBUILDER SR. DEVELOPER. VANZINI S.A., ROSARIO, ARGENTINA 03/02/2001 – 07/01/2003

- Has developed an application making complete re-engineering from INFORMIX structured language to PowerBuilder object oriented.
- Has been migrated all data using Microsoft Data Transformation Services using Javascript and VBScript to new data model of database structure.
- Own development tools for code generation.

LINC16 JR. DEVELOPER AND SSR. IN POWERBUILDER. UNISYS, ROSARIO, ARGENTINA 01/10/2000 – 03/02/2001

- Has developed financial and account core system modules in LINC 16 for Bisel bank under Sun Microsystem platform and Oracle database.
- ***Client server application for bulk data capture points, in PowerBuilder.***

SSR. IN DEVELOPER. PATAGONIA (IRONMONGERY), ROSARIO, ARGENTINA 11/02/1997 – 20/12/1999

- Has developed stock, administrative and points of sale systems in PowerBuilder.
- Designed and implemented communication protocol regarding government specifications for points of sale.

SSR. IN DEVELOPER. O.S.P.I.C. (OBRA SOCIAL DEL PERSONAL DE LA INDUSTRIA DEL CALZADO), ROSARIO, ARGENTINA 11/02/1997 – 20/12/1999

- Analyzed and developed the administrative social health work with a client server system in COBOL. The system involves control of members, contributions, orders, suppliers, business, suits, and billing services modules. Used RM/Panels and RM/Companion tools.
- Configuration and infrastructure components to implement.
- Solution to year 2000 issue.
- Developing complementary system for human resources area with Visual Basic.
-

OPERATING SYSTEM MAINTENANCE / JUNIOR PROGRAMMER. ROSARIO CRISTAL S.A. (DOMUS S.A.), ROSARIO, ARGENTINA 05/01/1996 – 11/02/1997

- Has developed UNIX scripts to control for various purposes including communications, data transferring and monitoring.
- COBOL accounting, financial and commercial systems develop and maintain.

OPARTOR/JUNIOR PROGRAMMER. MINETTI Y CIA. LTDA. SAIC, ROSARIO, ARGENTINA 01/01/1994 – 05/01/1995

- AS/400 operator system of batch scheduled processes, spoolers, data transfer.
- COBOL programing over development environment mounted on S/36 system for accounting.
