# SUMMARY

Senior QA with more than 10 years of experience in software quality assurance applying Agile methodologies. I had to perform a wide range of testing tasks, ranging from writing test cases and performing manual execution, bug tracking and estimation, identifying scenarios to create regression suits automated with Postman for web applications and mobile as part of geographically distributed teams, dealing directly with customers in the US.

# CORE TECHNICAL SKILLS

- Functional Testing
- Quality Center
- Jira
- SOAtest
- SQL Server
- SOAP UI
- Postman
- Mainframe
- Scrum/Agile
- SVN/CVS/GIT
- SNTE (Sabre View)
- Hybris platform
- Code in C#
- Assembla/Jira/Confluence
- Visual Studio
- NUnit
- Mobile Testing
- Telerik (Automation Suite)

# EDUCATION AND TRAINING

U.T.N Avellaneda, Argentina
Superior Technician in Programming

ACAMICA
Web FullStack development

ISTQB Course 2014

## LANGUAGES

- Spanish (native)
- English (advanced)
