EXPERIENCE DETAILS

SENIOR .NET DEVELOPER AT ENDAVA (JAN 2011 – AT PRESENT)

Endava is a public technology company, with over 20 years of experience of working with some of the world's leading Finance, Insurance, Telecommunications, Media, Technology, and Retail companies.

Key Projects and Responsibilities:

PHP, Symfony and Doctrine Training (June 2020)

- I am currently doing a training about Symfony and Doctrine on how to build a MVC web application with a connection to a DB.

SilverRail Technologies, Inc. (March 2019 – March 2020)

- SilverAgent: Added new features using React.JS and Redux. Wrote unit tests using Enzyme and Jest.

ClearStar, Inc. (November 2018 – March 2019)

- Made improvements to the existing Medical Information Services system. Kendo UI, JavaScript, .NET ASP.NET, .NET Core

Getty Images, Inc. (February 2016 – November 2018)

- iStock Editor (https://www.istockphoto.com/istock-editor). Helped adding new features to the iStock Editor and fixing issues since the first release. React, Redux, JavaScript, Swagger
- Getty WordPress Plugin (https://wordpress.org/plugins/getty-images). Added support for the new Getty Images API. Improved the user experience in order to release the 3.0 version of the plugin. Ember.js, JavaScript, PHP, Swagger, WordPress Plugin API.
- Adobe Creative Cloud Plugin (https://www.gettyimages.com/resources/plugins). Added new functionality to the existing Getty Adobe Plugin and made it compatible with new versions of the Adobe Creative Cloud. React, JavaScript, HTML5/CSS, Webpack, Swagger.
- Getty – iStock Integration. Migrated code from the old iStock site to the new Getty platform. Angular.js, JavaScript, .NET Framework.
- Dropbox Integration: Developed a module that connects to the Dropbox API.

PeopleMatter, Inc. (Jan 2012 – Feb 2016)

- Worked on the implementation of the onboarding workflow for new applicants. Improved the employee's shift scheduling calendar. Knockout.js, JavaScript, .NET MVC
- Made improvements to the module that connects to the E-Verify service (https://www.e-verify.gov).

Kern Health Systems (Jan 2011 – Dec 2011)

- Added new features to the patient's management system. JavaScript, Telerik UI, .NET Web Forms.
