Fernando Uranga

Senior Quality Assurance Technician at Endava
Argentina

Summary

As a Quality Assurance Senior Technician with an Information Systems Engineering degree and an ISTQB international certification, I have been working in the IT world for over 5 years now.
My education comprehends both German and Argentinian universities qualifications. I am well versed in 4 languages, completely fluent in Spanish and English but also being able to hold conversations in French and German.
Having worked for 3 multinational companies whose clients are mainly from the US and Europe I have participated in on-site and off-site teams with people from all over the world always aiming to deliver the highest quality software products with the highest-end technologies to our customers.
The working methodologies: Scrum, customized Scrum and Kanban are the ones I have experienced so far working for 6 different projects which revolved around a most diverse set of business areas, such as: HR Management, Project Management, Health Care, Dwelling, Environmental Health and Satellite Imagery Processing and Measurements.
I am eager to keep developing as an IT professional and reaching out to new technological and cultural-diverse experiences
