EDUARDO FABIÁN COLONNA

PROFESSIONAL CAREER SUMMARY

Performing development task and defining data and database structure. module and team leader tasks. Currently I'm interesting in researching new frameworks and libraries.

TECHNICAL SKILLS

Programming languages:

- ***JAVA***
- ***PowerBuilder***

Platforms

- ***Windows***

Frameworks

- ***Spring***
- ***Struts***
- ***Hibernate***
- ***SpringBoot***

Libraries

- ***AJAX***
- ***Quartz***
- ***Log4j***
- ***JavaMail***
- ***AngularJs***
- ***Angular 7***

Databases

- ***DB2***
- ***Oracle***

Others:

- ***Eclipse***
- ***Netbeans***
- ***Rational Rose***
- ***UML***
- ***IntelliJ***

LANGUAGES

- Spanish (Native)
- English

PROFESSIONAL EXPERIENCE

Endava Argentina, Paraná, Entre Rios

06/10/2016 – now

Senior Developer

Project: **Intake** is a special module created to attend incoming patient in hospitals for Navihealth company. I made a bunch of different tasks in current project, adding database scripts, lookup changes and new features, adding backend implementation. Tasks like research spikes are very common and design solution for new features.
More tasks related to fix environment issues, help to fix branch, database, builds issues.
New technologies are doing implemented and improvement timelock.
Client: Navihealth
Rol: Senior Developer (Engineer)

Neoris Argentina, Rosario, Santa Fé

16/01/2006 – 05/10/2016

Sr. Software Engineer

*Project: **Biblioteca Digital de Normativas**. Customization to open source project, It allow find and upload to digital regulations. Modify user permissions and group permissions; add module to change forms inputs on the fly without restart application server. Add external tables to database without affect to original schema (it allow update version). Add to REST communication with to application point access. Add Task programming to application and incorporate Quartz schedule library. Update code in different Linux servers.*
Allow work to application in High Available environment.
Client: Santa Fe Government (working with customer directly)
Role: Development Senior
Technologies: JAVA

*Project: **Padrón de Prestaciones**. Analysis and development of user case. Update code in testing environment. Prepare and update of application servers. Responsibilities over two application Padron de Prestaciones and Productos y Servicios.*
Client: Osde (Organización de Servicios Directos Empresariales)
Role: Leader and developer Senior (working with customer directly)
Technologies: JAVA

*Project: **Integra Workflows**. Analysis and development of user case. Fix bugs assigned. Use osworkflow (opensymphony). Improve user interface. Generate of reports, add of observation, attach, alert to workflow item. hange and framework update of application servers.*
Client: Osde (Organizacion de Servicios Directos Empresariales)
Role: Developer Semi Senior (working with customer directly)
Technologies: JAVA

*Project: **Pool Java**. Improve user interface. Improve data generator and data parametrized.*
Fix bugs. Build a architecture document.
Client: Osde (Organizacion de Servicios Directos Empresariales)
Role: Developer Semi Senior
Technologies: JAVA

Project: ***Osde SUBA****. Development of different web pages. Development module of basic requirement. Create reports using JReport.*
Client: Osde (Organizacion de Servicios Directos Empresariales)
Role: Developer Junior
Technologies: JAVA

Project: ***Mastercard****. Development of different web pages. Prepare different environments.*
Client: Mastercard
Role: Developer Junior
Technologies: JAVA

Freelance projects, Entre Ríos, Paraná

03/06/05 – 20/08/05

Stock Administration

Project: Stock Administration. Development software to stock administration. Users control and administration.
Client: Local Customer
Role: Developer
Technologies: JAVA

Advance Informatics Solutions, Entre Ríos, Paraná

03/03/05 – 31/12/05

Stock and Sale Administration

Project: Stock Administration. *Analysis and development of supermarket sale systems*. Control stock, bill generation, and consolidate stock.
Client: Local Customer
Role: Developer
Technologies: POWERBUILDER

EDUCATION

National Tecnologic University of Santa Fe 01/01/1996 – 20/05/2005

System Information Engineer
