

**Curriculum Vitae**

# Mitza Oyaneder

## I. Personal Profile

| | | |
|---|---|---|
| **Full Name** | : | Mitza Andrea Oyaneder Muñoz |
| **Document Number** | : | 94357758 |
| **Birthday Date** | : | December 11, 1981 |
| **Age** | : | 38 years |
| **Gender** | : | Female |
| **Nationality** | : | Chilean |
| **Marital Status** | : | Single |
| **Address** | : | Mendoza 1280 1th floor apartment B, Rosario, Santa Fe, Argentina. |
| **Mobile Phone** | : | (54 341) 6005573 |
| **E-Mail** | : | mitza.oyaneder@gmail.com |
| **Skype** | : | mitza.oyaneder |
| **Passport** | : | P03589226 (Chilean) |
| **USA Visa Exp. Date** | : | 24 June 2023 |
| **Languages** | : | Spanish (Native) – English (Upper Intermediate) – French (Basic) |

## I. Summary

Mitza is an autodidact and fast learning professional, with a very versatile profile in software development, always focused on the new technologies in the market.

Mitza started her career working on web applications, designing and implementing solutions in PHP and MySQL until October 2008, when starts working on mobile applications for iPhone, making analyzes, estimates, design and implementation. At the beginning of 2010 also starts to develop on Java for Android on a environment of Agile Methodologies, and finally in July 2012 begins to work as automated testing engineer using Selenium WebDriver, TestNG and Jenkins as continuous integration server for mobile and web platforms, her current role in the software factory industry. On 2016, Mitza starts to perform as QA Lead in the projects also taking a leadership position into the company as a specialist in automated testing and manager of the quality area.

Specializations: Selenium WebDriver, TestNG, Agile Methodologies (Scrum, Kanban).

## II. Academic Antecedents

| | | |
|---|---|---|
| **Academic Level** | : | Elementary School |
| **Institution** | : | Río Seco G-27 School, Punta Arenas, Chile. |

**Years** : 3 years
**Period** : 1988 - 1990

**Academic Level** : Elementary School
**Institution** : Portugal D-25 School, Punta Arenas, Chile.
**Years** : 5 years
**Period** : 1991 - 1995

**Academic Level** : High School
**Institution** : Juan Bautista Contardi Gastaldi B-12 High School, Punta Arenas, Chile.
**Years** : 4 years
**Period** : 1996 - 1999

**Academic Level** : College Education Complete
**Degree** : Computer and Informatics Engineering
**Institution** : Universidad de Magallanes, Punta Arenas, Chile.
**Years** : 5 years of study and 2 year of thesis.
**Period** : 2000 - 2007

## III. Experience

**Company** : OZ, Rosario, Santa Fe, Argentina.
**Title** : QA Manager
**Time Period:** Feb.2018 – Present
**Description :** Mentoring on Automation and Functional Testing, definition of the career path to each QA member on Argentina's office and giving follow up of the annual goals of individuals and QA area. Build the QA community inside the company by promoting sharing of the knowledge, objectives and encouraging the team building activities. Active participation of personal selection for the quality area.

**Company** : OZ, Rosario, Santa Fe, Argentina.
**Title** : Software Quality Assurance Engineer Lead
**Time Period:** Oct.2018 – Sep.2020
**Description :** Definition of testing strategies for projects, creation of test plan, creation of regression and smoke suites, functional testing of mobile application, web services and web application, assignment of tasks to QC/QA team members, decision support for project's leaders and live product demonstrations to client.

**Company** : OZ, Rosario, Santa Fe, Argentina.
**Title** : QA Automation Engineer & QA Lead

**Time Period:** Feb.2018 – Sep.2018

**Description :** Definition of testing strategies for projects, creation of test plan, creation of regression and smoke suites, functional testing manual and automated, design and implementation of automated solutions on Selenium and C#, assignment of tasks to QC/QA team members, product demonstrations to clients.

**Institution :** Velocity Partners Argentina, Rosario, Santa Fe, Argentina.

**Title :** Specialist QA Automation Engineer

**Time Period:** Mar.2016 – Feb.2018

**Description :** Functional testing and creation of new tests added to the regression suite for connectors developed the team. Integration tests on Java using a custom framework based on Junit. Organization of the quality team members in order to define best practices, agreements in relation to the work methodology and creation on a roadmap to improve processes and daily work. Help in the process of new hires for quality positions in the account. Planning and dictation of trainings for new team members.

**Company :** Velocity Partners Argentina, Rosario, Santa Fe, Argentina.

**Title :** Sr. QA Engineer

**Time Period:** Jul.2015 – Mar.2016

**Description :** Functional testing for frontend and backend of the project, improvement of regression and sanity tests for the project and creation of regression and sanity tests for the different components of the platform that support the project.

**Company :** Velocity Partners Argentina, Rosario, Santa Fe, Argentina.

**Title :** Sr. QA Engineer

**Time Period:** Mar.2015 – Jun.2015

**Description :** Exploratory testing and creation of test cases for Smoke test.

**Company :** Globant, Rosario, Santa Fe, Argentina.

**Title :** Testing Automation Engineer

**Time Period:** Sep.2013 – Feb.2015

**Description :** Development of automated testing scripts in Selenium WebDriver for Firefox, Chrome, Safari and Internet Explorer, using Java as coding language, TestNG for reporting and Jenkins as continuous integration server.

**Company :** Globant, Rosario, Santa Fe, Argentina.

**Title :** Testing Automation Engineer

**Time Period:** Jul.2012 – Aug.2013

**Description :** Development of automated testing scripts in Selenium WebDriver for iOS and Android, using iPhoneDriver and AndroidDriver.

**Company :** Globant, Rosario, Santa Fe, Argentina.
**Title :** iPhone Developer
**Time Period:** Aug.2010 – Jun.2012
**Description :** Development of native mobile applications for iOS on Objective-C using XCode on MacOSX 10.6.x Snow Leopard.

**Company :** ITX Corp, Rosario, Santa Fe, Argentina.
**Title :** Android Developer
**Time Period:** Feb.2010 – Jul.2010
**Description :** Requirements analysis, design, development and maintenance of applications in Java for Android phones using Eclipse IDE.

**Company :** ITX Corp, Rosario, Santa Fe, Argentina.
**Title :** Technical Trainer
**Time Period:** Jun.2009
**Description :** "Introduction to iPhone Apps Development" oriented to ITX Corp developers. 3 classes of 90 minutes to 2 groups of developers. Topics: Work environment, MacOSX and XCode. How to make your first iPhone application. Objective-C language. Interface Builder and using controls. Apple Store.

**Company :** ITX Corp, Rosario, Santa Fe, Argentina.
**Title :** Technical Trainer
**Time Period:** Nov.2008
**Description :** 8-hour day to answer questions and concerns of others iPhone developers.

**Company :** ITX Corp, Rosario, Santa Fe, Argentina.
**Title :** iPhone Developer
**Time Period:** Oct.2008 – Jul.2010
**Description :** Requirements analysis, design, development and maintenance of applications in Objective-C language using the XCode tools on MacOSX 10.5.x Leopard.

**Company :** INFO KI – Ingeniería en Sistemas, Rosario, Santa Fe, Argentina.
**Title :** Web Designer and PHP Developer
**Time Period:** May.2008 – Jul.2008
**Description :** Development of sketches for the design of Web pages using the Paint Shop Pro 8.01 graphical tool and systems development in PHP, with interfaces in PowerTemplate and CSS and MySQL database.

**Institution :** Universidad de Magallanes, Chile.
**Title :** Module Designer and Programmer
**Time Period:** Nov.2006 – Dec.2006
**Description :** "Degrees" module made in PHP, with interfaces in PowerTemplate and CSS and MySQL Data for Educational Information System.

**Institution :** Universidad de Magallanes, Chile.
**Title :** Module Designer and Programmer
**Time Period:** Jan.2006 – Apr.2006
**Description :** "DAE Benefits", "Maintenance and Consultation of Culturals and Sports Credits", "Teacher Survey" and "Survey Builder" modules made in PHP, with interfaces in PowerTemplate and CSS and MySQL Data for Educational Information System.

**Institution :** Universidad de Magallanes, Chile.
**Title :** Assistant System Administrator
**Time Period:** Aug.2005 – Dec.2006
**Description :** Installation, maintenance and repair of computer equipment with Windows2000 and Ubuntu (Linux) for Computer Engineering Department, development of applications in PHP, maintenance of the Departmental website and user support of the personal of Computer Engineering Department.

**Institution :** Universidad de Magallanes, Chile.
**Title :** Assistant Teacher for Object Oriented Programming
**Time Period:** Aug.2005 – Dec.2006
**Description :** Practical classes in laboratory about object oriented programming in JAVA to students of different levels of Computer Engineering career.

**Institution :** Universidad de Magallanes, Chile.
**Title :** Assistant Teacher for Mathematics
**Time Period:** Sep.2005 – Dec.2005
**Description :** Exercise classes to students of Agricultural Engineering.

**Institution :** Universidad de Magallanes, Chile.
**Title :** Assistant Teacher for Software Engineering
**Time Period:** Mar.2005 – Jul.2007
**Description :** Practical classes in laboratory about UML and Rational Rose tool for documentation of systems focused on students of different levels of Computer and Informatics Engineering.

**Company :** Empresa Eléctrica de Magallanes EDELMAG S.A., Chile.
**Title :** Student Trainee
**Time Period:** Jan.2005 – Mar.2005
**Description :** Installation and maintenance of computer equipment with Windows98 or Windows2000 operating systems, and attention to internal users

**Institution :** Universidad de Magallanes, Chile.
**Title :** Assistant Teacher for Administrative Information Systems
**Time Period:** Mar.2004 – Jul.2004
**Description :** Practical classes in laboratory about process diagrams using the Visible Analist tool to students of Computer Technician.

**Institution :** Universidad de Magallanes, Chile.
**Title :** Assistant Teacher for Computer Programming
**Time Period:** Mar.2004 – Jul.2006
**Description :** Practical classes in laboratory about structured programming in JAVA to students of first year in Civil Engineering.

## IV. Additional Information

**Nov.2005 :** Course “Development of Internet Applications and Services” by academics from Universidad de Castilla La Mancha (Spain) at Universidad de Magallanes, Chile. **Topics**: Introduction to Web application development with .NET. Implementation of the user interface, user controls, forms. Interaction with databases. ADO.NET. Debugging and testing applications. **Duration:** 20 hours.

**May.2008 :** Seminary “Makeup Yourself”, at Centro de Desarrollo Personal CDP, Rosario, Santa Fe, Argentina. **Topics**: Skin care. Everyday makeup. Evening makeup. **Duration:** 3 hours.
