PABLO FERNANDO DULUC

PROFESSIONAL CAREER SUMMARY

IT professional with over 9 years of experience in software development and deploying software applications using Microsoft .NET Framework. He is also an enthusiastic and pro-active developer who makes useful and easy to use applications by thinking outside the box.

He is currently working as a developer. He's focused on web development using MVC frameworks.

He has experience with WPF and Javascript.

He really enjoys working in a relaxed environment where I can apply creativity and knowledge in every single thing he does.
