DAVID F. CASCALLARES

Software Developer

🌏 Argentine citizenship 📍 Rosario, Argentina 📧 davidc2911@gmail.com ☎ +543416416747

SUMMARY

I'm a Software Developer with experience in AI as well as Web Development projects. Although I feel comfortable working with tech stacks related to Python, Java and Angular, I'm always looking for new technologies that challenge me to improve my skills and expand my programming knowledge. I'm passionate about Clean Code and Open Source Software and I consider myself a hard-working, responsible and self-taught person who loves teamwork. I have a Bachelor's Degree in Systems Analyst and I'm currently finishing my Master's Degree.

EXPERIENCE

Python Full-Stack Developer
📍 Rosario, Argentina 📅 07/2020 - present
I'm currently developing a Flashcards web app that allows users to memorize vocabulary, historical dates, formulas or any subject matter that can be learned via a question-and-answer format. I'm using Python as backend with technologies such as Flask and SQLAlchemy ORM; and Angular, Bootstrap, CSS as frontend. More detailed information can be found on my Github repository.

Software Developer
La Segunda CLSG - 📍 Rosario, Argentina 📅 06/2019 - present
Software developer at Digital Transformation field. I'm currently working on innovative and Artificial Intelligence projects (such as Machine Learning and Deep Learning). I mainly work with Python as backend and Angular as frontend, into an Agile methodology framework (Scrum). More detailed information can be found on my Linkedin profile.

Java Full-Stack Developer
📍 Rosario, Argentina 📅 08/2018 - 04/2019
I've been working as a Full-Stack developer on various projects using Java (JSP/Servlet and Spring Framework with different modules) and MySQL as backend, and HTML5, Bootstrap, CSS and Thymeleaf as frontend. More detailed information about these projects can be found on my Linkedin profile and my Github repository.

Functional Systems Analyst
Maximiliano Diesel S.A. - 📍 Rosario, Argentina 📅 01/2013 - 01/2019
I worked as a nexus between developers and application users. My main tasks as Functional Analyst were application testing, user training, reporting, issues tracking and requirements analysis. I also worked with internal databases doing tasks as a Data Analyst.

EDUCATION

Systems Analyst - Bachelor's degree
UTN - Facultad Regional Rosario
📅 02/2019

Information Systems Engineering - Master's degree
UTN - Facultad Regional Rosario
📅 Near completion.
