Summary

I'm a mostly a PHP Full Stack Developer, with a lots of experience as Backend Dev, mainly focusing on RESTful APIs and services in general.

My areas of expertise are as follows:
PHP (mostly Symfony and Laravel), HTML, JS, CSS, PostgreSQL, MySQL, MSServer, MongoDB, ElasticSearch, Cassandra.

I enjoy learning and teaching, working in teams, brainstorming sessions and polishing ideas, this added to my natural people skills sums up to a good team member or lead.
