Diego Dommage

Argentina

Data Scientist - Computer Vision - Machine Learning Developer + BI

Summary

Passionate about Innovation, always looking for new challenges.
Initializing my path and training in data science during 2019. 6+ years experience in Data Warehouse + Business Intelligence Analysis (Oracle Server and Microsoft SQL Server environments).
Experienced in home office, organized in my labor and permanently attentive and connected to customer needs.
Bachelor's Degree in Computer Sciences from Universidad Argentina de la Empresa (UADE).

Experience

Data Scientist - Computer Vision - Machine Learning Developer at Softtek

March 2019 - Present (2 years)

- Finding and developing solutions with Azure Cloud Services. Azure Databricks + Python + PySpark environment to attend the increasing Big Data needs.
- Developing solutions as part of Innovations Group: Computer Vision and Machine Learning requirements.

Frontend Developer at Softtek

September 2019 - March 2020 (7 months)

SOFTTEK FOR TERNIUM

- Built multilingual Cost Reports in an Agile environment, combining HTML5, CSS3, JavaScript, JQuery and Data Warehouse integration.

Senior Data Warehouse Analyst – Oracle and SQL Server Developer at Softtek

April 2017 - February 2019 (1 year 11 months)

SOFTTEK for ECOGAS

- Solved critical initiatives and designed operational data stores and data marts on Oracle and SQL Server Data Warehouse.
- Negotiated with business users to create effective ETL (Extract Transform Load) specifications, test cases and test plans.
- Improved ETL processes performance on PL SQL for the best user experience, by identifying data relations, using triggers, indexes and Scheduler jobs.
- Co worked on integration projects with SAP (batch/online), PHP, .NET and mobile for Oil and Gas Industry clients, joining efforts with the development team to diagnose and correct ETL problems.

- Business and data analysis prior to task assignment to each team member.
- Trained and mentored new team members on Data Warehouse projects.

Assistant Professor at Universidad Atlántida Argentina
March 2015 - February 2018 (3 years)

- In charge of “Introduction to Computer Sciences”, “Algorithms with Pascal” and “C Programming Language” in the Engineering School.
- Effectively designed the classroom meeting to capture the interest of the students.
- Tutored students with activities, expert knowledge and case studies.
- Contributed the School with ideas, knowledge, and experience to ensure continuous learning.

Data Warehouse Analyst – SQL Server Developer at Softtek
September 2013 - March 2017 (3 years 7 months)

SOFTTEK for TERNIUM SIDERAR

- Detected and resolved performance problems and inconsistencies to ensure optimal performance.
- Created effective specifications, test cases and test plans.
- Analyzed and improved ETL processes on Transact SQL.
- 100% satisfaction in solving users’ requirements.
- Team worked in data integration projects with SAP (batch/online).

Data Warehouse Analyst – BI Analyst – Oracle at Claro Argentina
January 2012 - January 2013 (1 year 1 month)

- Improved the Oracle Data Warehouse processes using Data Integrator and Informatica Power Center.
- Tailored reports with SAP Business Objects and Micro Strategy, according to final users´ specific needs and requests.
- Co worked in data integration projects with SAP team.

Senior IT Security Analyst at Tenaris Siderca
May 2011 - January 2012 (9 months)

- Successfully implemented security profiles related requests for Windows Active Directory, Exchange and Unix user accounts according to Service Level Agreement (SLA).
- Total satisfaction in solving users’ requirements and security incidents.
- Dealt with international customers needs from all Tenaris offices, written in Italian, English, Spanish, Portuguese, Chinese and Japanese.

IT Technical Leader at ReMASA
August 2010 - May 2011 (10 months)

- Managed and monitored Wintel, Unix and Linux infrastructures, both physical and virtual (VMWare ESX – ESXi). Supervised the Data Center devices health and made requirements for further maintenance to technicians.

- Managed the data Backup and Restores solutions (Symantec + HP Storage).
- Directed the Incident Support Team.
- In charge of writing and updating procedural manuals to ensure a current, accessible technical knowledge base for our team.
- Supported IT Security Policies team.

Senior IT Security Analyst - Forensic Data Analysis at YPF S.A.
August 2007 - August 2010 (3 years 1 month)

- Analyzed transactional activity of all the SQL Server, Oracle and Windows infrastructure, detecting any suspicious behavior by Security Policies with NetIQ Security Manager software.
- Proactively analyzed and reported any possible and known security breach on Database servers, Windows servers, communications devices that did not match the security baseline.
- Assured 100% security compliance (SOX, ITIL, ISO 27001) of IT architecture.

Cobol Batch/CICS Analyst at BBVA Banco Frances
July 2006 - August 2007 (1 year 2 months)

- Distinguished by Everis Consulting as a team leader and designated to work onsite in BBVA Bank.
- Improved and maintained systems menus, screens and applications with COBOL OS/390 respecting the detailed rules of programming and quality.
- Maintained the complete ETL process, including Procedures, Job Control Language (JCL), File-aid and database integration (DB2/SQL).
- Edited and made test scenarios with use cases, stress test and any additional requirement related with SOX for development documentation.
- Assured a fast response with production data issues according to SLA.

IT Technician at DIA Argentina
May 2004 - July 2006 (2 years 3 months)

- Supported the business with 100% Incident solving rate.
- Maintained Wintel and Linux infrastructures. Monitored the Data Center devices health and got in touch with the correct technician when necessary.
- Operated the Enterprise Phone Solutions (Alcatel PBX). Made use reports for the Financial and Human Resources team.
- Made workstations cloning, migrations and set-up.

Education

Universidad Argentina de la Empresa
Bachelor's degree, Information Technology, 2003 - 2008
