Flor Sanchez

Argentina

Automation Developer

Extracto

Experience in testing with agile methodologies and as a functional analyst in the automobile, insurance and telecommunications industries.
I am a self-taught, decisive and analytical person, part time cyclist.
I have ease of learning and with predisposition to teamwork, in search of new learning that represent me a challenge.
I am looking for projects inside or outside the country that challenge my abilities and allow me to develop both professionally and personally.

Experiencia

- Functional analysis of the application
- Design update and execution of manual test cases
- Training for new users

Software Engineering Analyst en Accenture
enero de 2016 - agosto de 2017 (1 año 8 meses)

Quality Assurance Analyst en Softtek
marzo de 2015 - enero de 2016 (11 meses)
- Proyect In Customer PSA Peugeot Citroën

Quality Assurance Analyst en PSA Peugeot Citroën

marzo de 2015 - enero de 2016 (11 meses)

Automovile Industry

Maintenance Globale (MG) / Enovia / 3DCOM & CATIA V5 / Dassault Systemes

- Executions made on 3DCOM and CATIA V5
- Parts search, modification, status verification
- Correct application functionality
- Search, report and monitoring of anomalies in JIRA.
- Design and execution of manual test cases
- Regression tests of reported defects.

PLM (Product Lifecycle Management) / Enovia / CATIA V6 / Dassault Systemes

- HPQC tool test case execution
- Search, report and monitoring of anomalies in JIRA.
- GP1, Searches search methods, creation of livrables, sub livrables, checklist, technical facts, ect.
- GP2, structure creation, product line, product node, product composition, assembly composition, ect.
- GP3 manipulation of filters, materials, application of materials, creation and simulation of trajectory, parts in CATIA V6
-GP4 shipment of parts Bilbao, B2B manipulation of 3D parts, plans, structures
-GP5 structures, manipulation of 3D parts

DIL / Enovia / 3DCOM/ CATIA /SAP

- 3D parts manipulation, data modification
- Parts search, modification, status verification
- Search, report and monitoring of anomalies in JIRA.
- Regression tests of reported defects.

Renovation VN / Cronos / Isis/ SQL / HPQC

- Queries, billing, sale, after sales
- Data search, modification, status verification
- Search, report and monitoring of anomalies in JIRA.
- Design, update modification and execution of manual test cases
- Regression tests of reported defects.

SDM (Simulation Data Management) /HPQC/JIRA/

Creation of data structures, data simulation

- Functional analysis of the application
- creation of objects, models, folders, data search, modification, status verification
- Design update and execution of manual test cases
- Regression tests of reported defects.
- Training for new users

Designer Assistant en Papi Art
enero de 2013 - diciembre de 2014 (2 años)

Design layout and assembly of racks and art installations
product development
art installation development
Illustrator / Corel Draw
