Japanese basic

formal languages

Java, Python, Ruby, Haskell
C/C++, golang, SQL
JavaScript/TypeScript
Android, Django, RoR
HTML, CSS
LaTeX

skills

Windows & GNU/Linux OS advanced usage, basic network management, git, Scrum, CI/CD, DevOps, Docker.

experience

2014–Now **Devartis S.A.** CABA, Argentina

Semi-senior Software Developer

Development and deployment of software solutions for local and foreign customers.

- Django, RoR and PHP web apps.
- Pebble Watchapps.
- Mobile apps on Phonegap/Cordova and Android SDK.

Featured projects:

- Workana – Android app for a freelance marketplace. We built an app with the essential use cases already covered in their web site, paying special attention to real-time interactions such as chat functionality. An extension for the preexistent PHP API was carried out alongside the app development.
- Pebble Tennis – Pebble watchapp to enable tennis players to keep points and technical notes during a coachless training session. Developed in C using the Pebble SDK. A Django webapp was developed to receive match data and offer its visualization to users.
- Gammon Star – Backgammon online platform. We built a Java API on top of an open-source backgammon engine, exposing it. User management and game statistics were controlled by a Django webapp, while game front-end was fully developed in TypeScript, strongly relying in the CreateJS suite.

2016–2017 **FCEyN, UBA** CABA, Argentina

Teaching Assistant

Auxiliary for the Language Theory course.

- Preparing classes (automata theory, regular expressions, parsing)
- Helping to set and grade tests
- Helping to create an end of course project

2012–2013 **IBM Argentina** CABA, Argentina

IT Specialist assigned to Banco Santander Río

IBM service delivery referent for local Santander Group affiliate.

- Incident Management.
- Problem Management.
- Change Management.
- Availability Management.
- Service Level reports.
- Team Management to deal with large-scale service failures.

2011–2012 **Innova Comunicación** CABA, Argentina

On-site Technical Services

Tech support for local IT services company working in the foodservice industry.

- Setup and repair of proprietary wireless communication devices.
- Specification of software configuration required based on the customer needs.

education

2009–Now **M.Sc.** in Computer Science [8/10] Universidad de Buenos Aires

other qualifications

2011 **UNIX Systems Administrator** IBM Argentina

2007 **PC Architecture and Repair** Centro de Educación Moreno
