# Maximiliano Andrés Mingoia

**Phone:** (011) 15-3684-1052
**Email:** mingoiamaxi@hotmail.com
**DNI:** 31.649.670
**Date of Birth:** 05/06/1985
**Age:** 33
**Address:** Julian Navarro 1822, San Isidro, Buenos Aires, Argentina

I gather knowledge in different areas, in which I have worked professionally and as part of personal developments. I have always researched the best ways to do my job, discover new tools and / or create them. My interest and fondness for design, sciences and systems has led me to discover a world in constant movement, in which I try and desire to travel, constantly enrich myself with knowledge, apply them to work, and create. Creating is what I'm passionate about, seeing the creation that one has thought or dreamed about working and doing its job is what fills me with joy and satisfaction.

## Experience

**Lenovo** **May 2017 - Present**
**Senior Web Developer**
Argentina

At Lenovo I am in charge of carrying out new functionalities in the Ecommerce of all Latin American countries, I am a reference in the sector and decide on the implementation of new tools and methods to carry out these implementations.
I share my knowledge and I meet with other members to acquire new ones. I was one of the developers in charge in Latin America to carry out the migration of the whole old Lenovo system to a completely new one.
I have created numerous internal tools which have automated the manual tasks that took days, reducing them to seconds.

Frontend: Layout, design, special features in Javascript, jQuery, CSS, SASS, CSS animations, management and implementations of tags and feeds, Tealium, forms. Applications, tools and functionalities for the team. GIT, Github, Bitbucket.
Json, Ajax, API-REST, Webservices, SOAP. Issues & project tracking with Jira.
Backend: PHP, Laravel, Linux installation and maintenance, Apache Server, MySQL, ORM Eloquent. Implementations model view controller (MVC). Process automation. Internal systems.
In my first year of work at Lenovo, I was recognized with the award:
Excellence BASC award 2017.
